SOME folks kill rats with poisoned oysters. In Toledo, the other day, a German stepped into a store and seeing upon a plate several tempting bivalves, proceeded to swallow one. Imagine his terror when informed that the oyster had been covered with deadly arsenic to poison rats. A potent emetic was immediately introduced into the nearly insane German's stomach, and the dangerous bivalve came up, thus relieving him of his great danger.

A ROGUE named Cohen purchased four thousand dollars worth of dry goods from Dyer & Sons, in Cincinnati, and had them removed to another ware house, from which he was not to remove them till he had made payment. Becoming suspicious, Dyer & Sons had the house watched, and discovered preparations going on in the dead of night to remove the goods. Cohen had transferred his purchase to other parties and made good his escape.

THERE is a woman in the New Albany, Ind., jail on a charge of murder. Artistic.

No gift that you can present to a friend, be that friend a mother, father, sister brother, or mayhap "a nearer one still, and a dearer one"—a lover or sweetheart—will be more acceptable than a counterfeit presentment of yourself, especially when the picture is done up in the most finished style of excellence, like unto the beautiful creations of art to be seen at the exhibition rooms of B. L. H. Dabbs, No. 26 St. Clair street. If you desire a picture—a likeness that will outlive the ravages of time and will defy the eating tooth of decay, you will have to go to Dabbs' gallery, where nothing but first class work is done.

From Time Immemoriable

The English people have been considered the most hardy and vigorous of any race, which no doubt to a great extent can be attributed to their universal indulgence to a greater or less extent, in their national beverage, *ale*. Its healthful and invigorating effect upon the system and digestive organs, cannot fail to produce health and vigor. If our weakly females and enervated and dyspeptic males would try the tonic effects of the English Ale and Porter, they will enjoy better health and appreciate the blessings of life in a more eminent degree.

The finest brands of English Ale and Porter can be found at M'Clarran & M'Kennan's Drug Store, 85 Market street, corner of Diamond, near Fifth street.

FROM THE SOUTH.

Meteoric Display in Georgia—A Memorial to Congress—General Assembly South.

NASHVILLE, November 23.—At about four o'clock, last Tuesday morning, a meteor, lighting the whole heavens, was seen in the vicinity of Rome, Georgia, moving rapidly in a south-westwardly direction. It appeared like a fire ball as large as the sun. It exploded apparently ten miles off, with a tremendous report like a 40-pound cannon, that shook the earth and made windows rattle.

MEMPHIS, Nov. 23.—A special to the *Avalanche* says: The Little Rock resolution passed the House unanimously, directing the Committee on Federal Relations to present a memorial to Congress, setting forth the spirit of despotism in Arkansas, their desire for the restoration of the Union and a speedy renewal of peace and confidence, and their willingness to concur in all measures to secure these results, which are consistent with the honor and dignity of the State. A resolution to reject the Constitutional Amendment was again referred to the Committee on Federal Relations, by a vote of 67 to 7.

The General Assembly continues to excite a deep interest. The question of educating the freedmen, especially those desiring to prepare for the University, was up to-day, and most enlightened and liberal views were expressed on the subject.

Jeff. Davis—His Expectations.

FORTRESS MONROE, Nov. 23.—Parties who have lately visited Jeff Davis state that they find him remarkably cheerful since the recent changes and additions made to his quarters in Carroll Hall, and the removal of Mrs. Davis and her sister to rooms prepared for them. Mr. Davis' health is much improved; and he speaks very confidently of being released. The family is visited constantly by relatives and friends from the South, and packages of presents are frequently received.

Constitutional Amendment in Missouri.

ST LOUIS, November 23.—The *Evening News* of to-day says: Gov. Fletcher, Hon. B. Gratz Brown, Hon. Henry T. Blow, and other prominent radicals inaugurated the movement in this city having for its object the rejection, by the Legislature, of the Congressional Constitutional Amendments and the amendments of the State Constitution so as to abrogate the disfranchisement of rebels and substitutes therefor negro suffrage.

The President to Abandon His Policy.

PHILADELPHIA, Nov. 23.—The *Bulletin* publishes a Washington dispatch, which states that the President, after mature deliberation, has decided to abandon his opposition to Congress. He will set forth very fully in his message the reasons which have induced him to take this step. Letters have been addressed to leading republican Senators and members of Congress in regard to the matter.

PHILADELPHIA, November 23.—Joseph S. M Gibson, a Pennsylvania Railroad conductor, has just been committed to prison, in default of ten thousand dollars bail, on a charge of embezzling fares collected by him. Numerous discharges of conductors have recently taken place.

Robbery and Attempted Murder.

On Thursday night one of the night police found a man lying at the foot of the precipitous cliff on which is located the lower basin, in an almost comatose state, having evidently fallen from the top of the bluff. He was taken to the lock-up, where he was attended by Dr. McCook. The man gave his name as William Dungee, and stated that he had been assailed by another negro, while on his way to his boarding house in the Seventh ward, knocked down and robbed of a pocket-book containing about fifteen dollars, and that after robbing the negro shoved him over the precipice, and he rolled to where the officer found him. He had his left leg broken above the ankle, and was otherwise bruised and injured. Dungee has not the slightest idea as to who his assailant was. Dungee further states that he believes that the negro did not intend to hurt him by pushing him over the hill, but did so to enable him to escape with his booty. Dungee was removed to the City Farm yesterday morning. This is one of the most singular affairs that has transpired for some time.

Consolidation of Railroads.

A meeting of the stockholders of the Central Ohio Railroad was held at Zanesville on the 21st inst., and a contract was approved by the terms of which the Central was leased to the Baltimore and Ohio road for twenty years, either party reserving the right to terminate the lease at the end of five years. We understand the terms are considered very favorable to the interest of the stockholders of the Central, who have never enjoyed the pleasure of receiving a dividend from their investment. The Baltimore and Ohio management assumes control on the first of December next and will at once proceed to put the road in complete repair, besides greatly increasing the motive power and rolling stock. The ability and success of the Baltimore and Ohio Railroad is a sufficient guaranty that the Central will now be second to no other road in the State. We are gratified to announce the fact that the local trade of the road will have especial attention, and Wheeling will have hereafter a prompt and reliable western outlet, for both passengers and freight.

Explosion of a Lamp.—Yesterday afternoon a party of hands were employed at work in the hold of the steamboat Delaware, at the foot of Wood street, when a lamp filled with carbon oil standing in the hold, suddenly exploded, scattering the burning oil through the hold. The flames communicated to a barrel of pitch standing near, and for a few moments the boat was in danger of destruction. The burning barrel was tumbled overboard at length, and the fire in the hold safely extinguished. Fortunately no person was injured.

Accident—Leg Broken.—A lad aged seven years, named James Gallagher, fell from a hay loft, in the rear of the Red Lion Hotel, yesterday, and broke his leg a little above the knee. He was carried to his home in Scott's alley, and from thence to the Mercy Hospital, where his injuries were attended to by the surgeon of the institution, Dr. E. Donnelly. The lad was doing well at last accounts.

Personal.—Mrs. Ettie Henderson, the wife of the manager of the Theatre here, has just concluded a successful engagement in Quincy, Illinois. She opens in Bloomington on Monday evening next for six nights, after which she returns home.

General Conference.

ADJOURNMENT.

The Conference re-assembled at two o'clock Thursday afternoon, and after prayer the consideration of the resolution offered by the Rev. Dr. Scott, as a substitute for the second resolution of the report submitted by the Committee on Union was resumed. After some discussion the resolution was adopted.

The third and fourth resolutions were also adopted.

The Conference then entered into the election of an editor, publishing agent, and Board of Publication, which resulted as follows:

Editor of *Western Methodist Protestant*—Rev. John Scott, D. D.

Publishing and Book Agent—Rev. A. H. Bassett.

Board of Publication—Revs. J. E. Slocum, J. G. Evans and V. Lucas.

The Conference then adjourned.

The Conference convened again at half-past seven, when prayer was offered by Rev. Mr. Morris.

Rev. Mr. Bassett, from the Committee on Statistics, made a report which was accepted and adopted.

Rev. Mr. Lucas presented a resolution changing the name of the church newspaper from the *Methodist Western Protestant*, to the *Methodist Recorder*.

Dr. Blood moved that the name of the *Sunday School Protestant* be changed to the *Sunday School Recorder*, which was also adopted.

On motion of Rev. A. H. Bassett, Revs. George Brown and Alexander Clark were appointed a committee to prepare a history of the Methodist Protestant Church, and submit it to the Committee on Publication. Rev. Bassett was afterwards added to the committee.

The report of the Committee on the Judiciary was called up, and that portion relating to the government of the several Boards of the church adopted.

Rev. Mr. Marshall moved that the action of the Conference in appointing a committee to prepare a new hymn book, be reconsidered, and referred to the next General Conference. Adopted.

A resolution returning thanks to the citizens of Pittsburgh and Allegheny, for the generous hospitality they exhibited to the members of the Conference, and to the Rev. V. Lucas, Pastor of the First M. P. Church, of Allegheny, for courtesies extended, was adopted by a rising vote. A vote of thanks was also tendered the Pennsylvania Central, and the Pittsburgh, Columbus and Cincinnati Railroads, for issuing excursion tickets to the delegates, and to the Pittsburgh press for publishing proceedings of the Conference.

Shortly after ten o'clock the Conference adjourned to meet in Cleveland, in May, 1857.

Palmer, Anshutz & Company.

The well known and popular retail boot and shoe house of A. Robinson & Co., located at 61 Market street, has been disposed of with stock, to a new and enterprising firm, Messrs. Palmer, Anshutz & Company, whose card appears in another column. The new firm is composed of young business men who are not unknown to the purchasing community—Messrs. John and William Palmer, and Theodore F. Anshutz. The former two gentlemen have a wide and extended acquaintance and reputation as shrewd and fair dealing business gentlemen, while Mr. Theodore Anshutz is universally known, having had large and liberal experience in several first class shoe stores, and more recently was attached to the United States Assessor's office in this city. The firm have entered into business with the determination to build up such a trade as their enterprise warrants, and will confine to sell boots, shoes, gaiters, and every article of pedal coverings at prices which are even lower than those of Eastern houses, for similar first class goods. A fresh stock, suitable for winter wear and admirably adapted to the wants of this community, has been laid in and will be disposed of at prices which prevailed years ago. Active and obliging salesmen are constantly in attendance to wait upon trade, while every inducement will be offered to continue and increase the large patronage already enjoyed by this house. Remember the place, No. 61 Market street.

"*The Harmony Society at Economy, Pennsylvania, Founded by George Rapp, A. D. 1805. With an Appendix. By Aaron Williams, D.D.*,"

Is the title of a book of 180 pages, for a copy of which we are indebted to the author. Dr. Williams has enjoyed the best of opportunities for access to the records and archives of the Economites, and has proved himself a capable and faithful historian of these interesting and worthy people from the origin of the old Harmony Society in Germany, more than sixty years ago, through its various changes of location, and name, and vicissitudes of fortune down to the present time—when by the name of Economists and under the Trusteeship of the honorable and venerated R. L. Baker and Jacob Henrici, it is so well known and so highly esteemed by good men of all classes of society. The world will not approve or adopt the asceticism of the Economists, but it would be well for the world and the people thereof if all men were as orderly and peaceful, as loyal and patriotic, as honest and truthful, or as humane and benevolent as these excellent Economists.

We are glad that they have found in the accidental leisure of Dr. Williams, so faithful a chronicler, and commend the book to general perusal as well on account of its author as its subject.

Meteoric.

Professors of Astronomy seem to be in an inextricable dilemma since their prognostications with regard to the meteoric shower failed them. Notwithstanding they declared the heavens would be brilliant with falling stars, there was nothing perceptible here on the 14th save a greyish fog that made even the house-tops invisible. Although the stars did not fall the prices of boots and shoes at T. A. McClelland's mammoth auction house, Nos. 55 and 57 Fifth street, did, and so low too as to place the finest finished and most durable goods within the reach of the poorest artisan in the community. McClelland is now selling all kinds of domestic goods, such as cotton and woolen dress goods, ladies and gentlemen's boots and shoes, and a varied assortment of furs. These goods were purchased in the east under exceedingly advantageous circumstances, and McClelland can therefore justify himself and sell them lower than any other establishment in the city. Country merchants desirous of replenishing their stocks before the holidays, should not fail to visit this house. Remember the place, Nos. 55 and 57 Fifth street, under Masonic Hall.

A Disorderly Frolick.

George Evans is a cripple and the keeper of a stall in the Allegheny Market House. A day or two since Chris. Frolick, a German tavern keeper, visited Evans' stall and they effected a slight misunderstanding between themselves. In the course of an animated conversation Evans, as is alleged, called Frolick a "Dutch liar." The musical name did not suit the frolicsome listener, and he pitched in and abused Evans most roundly, calling him everything the language admits of, and acting altogether in a very disorderly manner. Evans had him arrested and taken before Mayor Morrison, by whom he was fined $5 and costs. After paying the expenses, Frolick insisted on making an information against Evans for calling him a Dutch liar. His Honor informed Frolic that he had already indirectly received satisfaction for that insult, for if Evans had not given him that provocation for his conduct, he would have been fined ten dollars instead of five.

Burned to Death.

On Saturday night last Mr. Nathan Thomas, residing near Perrysville, this county, was burned to death. The particulars of the accident, as near as we can gather them, are as follows: Mr. Thomas had been living by himself for a number of years, keeping "bachelor's hall," and on the evening of the accident had retired at about his usual hour. Having placed wood, for the purpose of drying it, too near the stove, it ignited, and about twelve o'clock the fire was discovered, when a number of citizens rushed to the scene. When he was taken from the burning, he was a corpse. It is said he lived rather an intemperate life, and it is supposed he was under the influence of liquor at the time of the accident.

Committed.—Patrick McGarr, the proprietor of a diminutive clothing store on Water street, had a man named Dennis Sullivan arrested yesterday and committed to jail, on a charge of stealing an overcoat from him on Tuesday evening.

Amusements.

NEW OPERA HOUSE.—Few novels which have recently made their appearance have so suddenly taken possession of the public mind as Charles Reade's Griffith Gaunt. Indeed, we see it stated that the sale of the novel has thus far been much more rapid than that which met "Uncle Tom's Cabin" a few years ago. So popular a story could not long remain undramatized, and almost simultaneously with the publication of the novel, it is presented here in Pittsburgh upon a Western stage. To the indefatigable and enterprising Manager Hess, of the Opera House, belongs the credit of introducing the great moral drama—for moral it is, since all the objectionable parts of the story have been expunged—to a Pittsburgh audience. Last evening we attended the Opera House with high hopes for an evening of rare entertainment, and were even better pleased than we had previously thought we could be. No play has ever been put upon the stage in better style. The scenery used throughout the piece is new and natural, reflecting great credit upon the skill and talent of Mr. O. C. Richards, the scenic artist of the House. Who has e'er been to a fair in Lancashire will doubtless recognize as familiar the third scene of the third act, where the greased poles, fat women, slippery pigs, seedy thimble-riggers, ballad singers, and itinerant showmen are introduced in all their glory. The audience fairly convulsed with laughter at this scene which was an entire play within itself. We might suggest, however, that the innocent and intelligent little pigs introduced be trained better than to jump into the violincello of the orchestra, as happened last evening. Act 5th, contains the murder trial, which is one of the prettiest and most touching part of the play. The characters are cast carefully, and every actor and actress is placed in proper part. Mr. Leak fully conceives the character of the jealous and impetuous Griffith Gaunt, as the author pictures him, and sustains the part throughout in his usual able and studied style. Mr. Hagan in Tom Leicester, admirably sustains his high reputation and never have we seen him appear to better advantage. Mr. Jackson as the rural doctor is good, while Mr. Beall does up the part of Professor of the Royal Game of Thimbling in a manner so comic as would provoke the risibility of the sourest old maid in Christendom. The other actors equally sustained their parts. Kate Peyton, the beauty of Cumberland, afterwards Mrs. Griffith Gaunt, was personated by the charming actress, Miss Anna Waite. She carried into the character the deep feelings of love, scorn and hatred, which the ingenious author has interwoven into the character of the fair woman so cruelly deserted by the jealous Griffith. Mrs. Emma Skerritt appeared as Mercy Vint, the beauty of Lancashire, who was deceived and wed by Griffith Gaunt, after having deserted Kate Peyton. Few theatre-goers need be told how admirably she succeeded, for seldom has the stage here been graced with a more pleasing and accomplished artiste than Mrs. Skerritt. The deep, cunning and treacherous Caroline Rider was ably impersonated by Mrs. Nichols. She played the part so truly as to make us hope that the acting was unnatural to her. The other ladies were equally worthy of mention, but our crowded space will not permit a more extended notice. Griffith Gaunt as played at the Opera House is a success—a grand success, and will doubtless have an unparalled run. We urgently advise all to attend the Opera House while it is upon the boards, as they cannot fail being satisfied and pleased with the great sensation play.

THEATRE.—An unusually attractive bill is offered at this establishment this evening consisting of the drama of the "Rag Picker of Paris," Jones' Baby and the beautiful melodrama of the "Maniac Lover." Harry Hotto, the favorite comedian, will make his initial bow this season in each of the pieces named, and this announcement alone should be sufficient to crowd the house. On Monday evening, M'elle Marietta Ravel, the famous sensation artiste, will open for a brief season, in the military drama of "The French Spy." She has played some of the most successful engagements of the present season in the East, where she has been flatteringly received. Lady Audley's Secret, is up for the matinee this afternoon.

MASONIC HALL.—Ben. Cotton's California Minstrels gave their second entertainment at Masonic Hall, last evening, to a house crowded in every part. To commend any particular portion of the programme, or any member of this very excellent troupe, would be but doing injustice to something or some person equally meritorious, and therefore we refrain from particularization. Suffice it to say that in our estimation, it is the very best company that has been here for quite a long time. Frank Campbell's singing of "Meet Me in the Lane," is alone worth a visit to hear.

ROLLANDS BROTHERS.—Those celebrated gymnasts and acrobats open in Masonic Hall, on Monday evening.

New Style of Thieving.

There is one thief in Allegheny who would have delighted the soul of Edgar A. Poe by the mere exhibition of his originality. He displays a talent for thieving as a fine art, and if he could be discovered and cultivated he would lead the profession. Meanwhile, so long as he remains around, we recommend to the Alleghenians to keep a sharp eye on their door steps and chimneys, or they will wake up some morning and find that they have disappeared.

One afternoon, a few days since, at about five o'clock, a man entered the hall of Mrs. Stoddard's millinery establishment, on Federal street, Allegheny, and went quietly to work pulling up the tacks that fastened down the carpet. The hall was large and the floor entirely covered with carpet, but so quietly did the fellow conduct his operations that he succeeded in unfastening the carpet, folding it up into compact shape, after which he took the roll coolly under his arm, walked out of the door and made off with his novel booty. The first intimation Mrs. Stoddard had of her loss, was when a little girl, who had seen the thief going away with the carpet, came in awhile afterwards and asked her where she had sent her hall carpet. Search has been made, but no trace has been found of either the thief or his plunder. Allegheny is one ahead in the matter of thieves.

Heard and Discharged.

We noticed, some time since, that Michael McTighe had been arrested on suspicion of having been concerned in the robbery of the shoe store of Tegethoff & Co., at the corner of Smithfield and Fifth streets, and had been admitted to bail for his appearance. McTighe had a hearing before Mayor McCarthy, yesterday afternoon, on another information lodged against him by John Russell, proprietor of a shoe store on Fifth street extension. Mr. Russell states that on Friday night, October 18th, his store was entered and robbed of eight pairs of boots, one pair of shoes and six dollars in money, the whole amounting to one hundred and fifty dollars. One of the pairs of boots stolen from Russell were found in the possession of McTighe, which caused the information to be lodged against him.

At the hearing yesterday afternoon no evidence was adduced sufficient to warrant the holding of the prisoner for trial, and he was discharged. It is true that the boots mentioned were found in his possession, but Edward Hornet, a boy arrested on a charge of being concerned in the same robbery, testified that he sold the boots in question to M'Tighe. Hornet was arrested two weeks ago, and has been in the lock-up ever since, awaiting the arrest of M'Tighe, his supposed accomplice. He will now probably be sent to jail.

Alleged False Pretences.

John Crane, of Manchester, is another victim of oil speculation. He came before Alderman Strain, yesterday, and alleged that on the 10th of March last, John C. Bryson and T. H. McClelland came to him from Middletown, Moon township, and stated that they had purchased, on Little Mill Creek, Hancock county, West Virginia, sixteen acres of valuable oil territory for $800 per acre. They were about organizing a company of twenty-four shares at $400 per share, and were desirous that he should take some of the stock. Influenced by these representations, Mr. Crane, after some hesitation, purchased one share, paying down $400. Subsequently he ascertained that the parties from whom he had purchased, had only leased the land instead of buying it, and that accordingly he had been defrauded of his $400. On this statement, a warrant was issued for the arrest of the parties on a charge of false pretences.

Charged with Passing Counterfeit Money.

George A. Speer was brought before United States Commissioner McCandless, yesterday morning, charged, on oath of Jeremiah Elliott, with passing a counterfeit twenty dollar National Bank note. Speer is barkeeper at the Irving House, on Liberty street, and it is alleged passed the note in question on a man named John Berry. The information was made by Elliott on "information received," and a warrant being issued, Speer was arrested. He gave bail in the sum of $1,000 for a hearing at ten o'clock to-morrow morning.

Deafness and a Discharge from the Ears Cured.—I certify that I had an offensive discharge from my left ear, and the hearing was so impaired that I could not hear a watch tick. By a few week's treatment, Dr. Aborn, at the Merchants' Hotel, has cured the discharge and restored my hearing. The doctor does not resort to cutting, probing, or any painful operations. T. D. JONES,

Festival.—Everybody should remember that the grand Festival of the Ladies' Homeopathic Association opens on Monday evening in City Hall. Those who wish to pass a pleasant hour in chaste amusement, should avail themselves of this golden opportunity.

Frightful Fall.

A fatal accident, resulting in the death of Mr. James Kelly, a slate roofer, of Allegheny, occurred on Thursday evening at Johnstown. Mr. Kelly had charge of the roofing of a very large building recently erected in Johnstown, and between four and five o'clock on the afternoon mentioned, had ascended the ladder to the top of the building. Just as he reached the top, a derrick accidentally swung around, striking him and knocking him back off the roof. The unfortunate man was precipitated to the ground, a distance of sixty-five feet. He struck a staging in his fall, which, however, did not check him, but gave way with his momentum and fell with him. Mr. Kelly struck on his head, breaking his neck and, of course, killing him instantly. It is not probable, however, that, in any case, he could have survived the effects of so frightful a fall. The deceased was about fifty years of age and resided at No. 49 Monterey street, where he leaves a family.

Caught at Last.

On the night of October 17th, a man named Moses Donaldson was arrested by officer Sarber, and tried before Alderman Donaldson on a charge of assault and battery, preferred by the prisoner's wife. The hearing resulted in his being held to bail. At his request, officer Sarber went out with him to procure bail. When they had reached a retired locality the prisoner turned suddenly on his custodian and assaulted him violently, and finally effected his release from him. He remained at large, in spite of all efforts to arrest him, until yesterday, when he was spied by officer Sarber, taken before Alderman Donaldson, and by him committed to answer the two charges of assault and battery.

Sneak Thievings.

Allegheny, no less than our own city, is infested with an organized band of sneak thieves, whose specialty seems to be overcoats. They slip in at every door they can find ajar for a moment, and many hall stands have been made desolate by the love of these gentry for "good clothes." One of the most recent victims in Allegheny is Mr. Harvey Child, residing on Stockton avenue. His hall was entered a few evenings since and two valuable overcoats stolen therefrom. The Allegheny police took the matter in hand and have been in search of the coats at the different pawnbroking establishments, but without success.

Common Pleas.

In the Court of Common Pleas, the case of James A. Speer vs. the Pittsburgh and Cleveland Railroad Company, which was taken up yesterday, is still on trial. The plaintiff is a resident of Manchester, and owns and occupies a dwelling at Walnut and Preble streets. The track of the railroad company is laid within fifteen feet of his house, and he alleges that the constant passage of trains to and from the depot of the company has depreciated the value of his property, and prevents him from disposing of it by sale. The suit is brought for the damages thus sustained.

Hit With a Bucket.—Mary Hedrick, living on East lane, Fourth ward, Allegheny, made information yesterday before Mayor Morrison, accusing George Taylor with assault and battery. The defendant is a neighbor of the accuser, and, as she alleges, entered her back yard, where he had some words with her. His rage increased and at length he seized a heavy slop-bucket and hit her on the arm with it, inflicting painful bruises. The accused was held to bail for a further hearing to-day.

Hard Knocks.—Phillip Weaver, of the Second ward, yesterday came before Alderman Strain, and made information charging John Knox with assault and battery. He alleges that on Thursday night the defendant attacked him and delivered a series of hard knocks upon his person, the result of which was that he was knocked down. In fact he don't think that an axe could have knocked him harder than Knox knocked him. The accused was arrested and held for a further hearing.

Serious Accident.—Phillip Curren, an employee on the P. C. & C. Railroad, fell, yesterday, at two o'clock p. m., between two freight cars, near the Market street crossing, in Steubenville, and was so badly crushed that it is supposed he must die. He has both legs broken and badly mashed; he is also severely injured in the head. He had been married but two weeks. His residence is in the country, west of the city, on the railroad.

Knocked Down.—Henry Armstrong, residing in the Eighth ward, yesterday had a tussel with John Gillespie, also of the same ward, and got the worst of it, as Gillespie knocked him down and kicked him in the ribs. The injured party made information before Alderman Strain, and the accused was arrested and held for a further hearing.

Hit in the Eye.—Henry Nesbitt appeared before Alderman Strain, yesterday, and made information for assault and battery against Geo. Boggs. The defendant assaulted him in the Seventh ward, hit him severely in the eye and abused him in various other ways. The accused was arrested and held for a hearing.

Released.—John Oliver, convicted at the recent term of court of assault and battery, and sentenced to pay a fine of $50 and undergo an imprisonment of two months in the county jail, was yesterday released from confinement, having fulfilled the conditions of his sentence.

Partial Hearing.—A partial hearing was had yesterday before Alderman Strain, in the case of McCarthy vs. Marshall, reported yesterday morning. The hearing was continued until this afternoon at three o'clock.

Will Meet.—The 102d Pennsylvania Volunteers hold a semi annual meeting for the election of officers, this evening at Fireman's Hall, City Building.

Every week, Dr. Quiney A. Scott is called upon to insert Artificial Teeth in cases where other dentists *have tried, been paid, and failed*, and in every case *his* work gives entire satisfaction. He is quite an artist in his line of business, and has merely to examine a case know how to articulate the teeth so that they will present a handsome and natural appearance, and will masticate the food thoroughly.

His prices are lower than those of any dentist in the city, and he will *guarantee* his work to be superior. We would also *assure* those persons who are suffering with diseased and unsightly teeth that they can have them extracted *without any pain whatever*, by calling upon Dr. Scott. He has extracted for *over ten thousand* persons within the last seven years, and among this large number there *is not one case* in which his process has proved injurious. On the contrary, he can refer to numbers of his patients who claim to have been benefitted in renewed health. He extracts numbers daily by the new "Rhigolene or Vapor" process, and gives pure Laughing Gas to those who desire it, without charge. He makes no charge for extracting when artificial teeth are ordered, and gives a full set on Vulcanite, with beautiful gums, for eight dollars. TO YEARLY ADVERTISERS.

Owing to the large amount of advertising patronage with which we are favored, and for which we are duly thankful, and the increase of our circulation, altogether beyond our present means to supply as promptly as we ought, we find it generally inconvenient, and sometimes quite impossible, to insert changes for yearly advertisers, unless left at our counting-room before seven o'clock in the evening.

CONGRESS AND THE PRESIDENT.

The conflict between Congress and the President in regard to the reconstruction of the rebel States, will soon be renewed unless the latter gives in and acknowledges himself beaten—a thing it is not probable that he will do. The controversy is an exceedingly important one. Except the great rebellion of the slave States, so recently crushed, nothing in the country's history has been so consequential.

One of the most remarkable features of it is, the claim, so continually put forth by **Andrew Johnson**, that he is *the government*. Everything that he has done in regard to reconstruction, he claims to have been done by *the government*. He calls all his acts in regard to the matter the acts of *the government*, and everything that Congress has done he calls opposition to *the government*. In all his harangues he characterizes the controversy, not as a controversy between Congress and him, not as a controversy between the legislative and executive departments of the government, but as a controversy between Congress and *the government*. It is in pursuance of this theory that he characterizes Congress as a body hanging loosely on the verge of *the government*, and stigmatizes the leading members of Congress as traitors who deserve to be hung.

It must be obvious to every one that this claim is a very extraordinary and a very dangerous one. It entirely ignores the legislative and judicial departments, and makes the executive department all in all. It destroys at one blow the whole system of checks and balances which our fathers, in framing the government, so carefully provided, and which the Constitution so anxiously cherishes. It puts, not only the power to make and to execute the laws, but the purse and the sword, all into the hands of the President, and makes him an absolute and irresponsible despot.

Our government is framed after the model of the British government. They both have the same departments, and in both the functions of the several departments are the same. With us the President stands in place of the King, Congress in place of Parliament, and our courts in place of the English courts. Under the British constitution the members of the House of Commons, are elective, and no other functionaries are; under our constitution the members of the House of Representatives are elective, and no other functionaries are. We talk about the President and Vice President being elective, but they are not. Even the electors of President and Vice President, according to the constitution are not to be *elected*, they are to be *appointed*.

In England the House of Commons, being chosen by the people, represents the people; and the same is the case with our House of Representatives. In England Parliament is omnipotent, and its omnipotency rests ultimately in the House of Commons. In our government Congress occupies the same position that Parliament does in the British government. Whatever of omnipotency there is in our government, is vested in Congress, and it rests ultimately in the House of Representatives. The House of Commons having the absolute control of the national purse, can, by stopping the supplies, lay the King and House of Lords prostrate at its feet, and our House of Representatives having the same control over the national purse, can, with equal ease lay the President and the Senate prostrate at its feet. This is not only so as a fact, but it was intended by the framers of the Constitution to be so.

But that which more than anything else makes the House of Commons irresistible, is the power of improvement, and the same power in our House of Representives, makes it equally irresistible. The people are the ultimate source of all political power. The House of Representatives stands in the place of the people. It speaks for the people, and acts for the people. Its voice is the people's voice; its acts the people's acts; its articles of impeachment the people's articles of impeachment; its condemnation the people's condemnation. The judges of the Supreme Court may pronounce an act of Congress unconstitutional, but the House of Representatives may impeach them for doing so, and the impeachment being sustained, they are not only removed from office, but are disqualified to hold any office of honor, trust or profit under the government. The President may refuse to execute an act of Congress, but the House of Representatives may impeach him, and upon being found guilty, he is disposed and disqualified to hold any office under the government. The judgment of the Senate upon an impeachment by the House of Representatives is final and conclusive. There can be no appeal from it—no escape from it. The President may be impeached for an abuse of any of the powers which the constitution vests in him, as, for instance, the veto power or the power to grant pardons and armistice. He may veto an act passed by both Houses of Congress, but the House of Representatives may impeach him for it, and the Senate may convict him on the impeachment, and then he must be deposed. He may grant a general amnesty to all the Southern rebels, but he may be impeached, convicted and deposed for pardoning rebels and appointing them to office in the way he has been doing.

Such is the power of the House of Representatives; such the power of Congress. From its judgment of condemnation there is no appeal, from the consequences of its condemnation there is no escape. In Congress the sovereignty of the government culminates. There is nothing in the government above it, nothing even on a level with it. To it every thing must bow, before it every thing must give way.

The overwhelming power of the legislative branch of the government has been frequently, and sometimes, terribly exemplified. In England where Parliament occupies the same position in the government that Congress does in ours—**Mr. May**, in his History of the Constitution, vol. 1, page 430, says:

"If Parliament disapprove of any act or policy of the government, ministers must conform to its opinion or forfeit its confidence. In this measure the House of Commons, having become the dominant body in the legislation, has been able to direct the conduct of the government, and control its executive administration of public affairs without exceeding its constitutional powers. It has a right to advise the Crown, even as to the exercise of the prerogative itself; *and should its advice be disregarded, it wields the power of impeachment, and holds the purse strings of the State.*"

"The House of Commons, in the first instance, and the people in the last resort, have become arbiters of the fate of the Ministers of the Crown. Ministers may have the entire confidence of their sovereign, and be all powerful in the House of Lords; but without a majority of the House of Commons, they are unable to administer the affairs of the country. The fall of ministers has more often been the result of their failure to carry measures which they have proposed, or of adverse votes on questions of public policy; but frequently it has been due—particularly in modern times—to express representations to the Crown, that its ministers have not the confidence of the House of Commons. Where such votes have been agreed to by an old Parliament—as in 1784, and again in 1859—a vote affirming that they have not the confidence of the House of Commons is conclusive."

For pursuing a policy in defiance of the opposition of Parliament, **Strafford**, at the suit of the Commons, died on the scaffold, and an obstinate pursuit of the same policy cost his master, **Charles I.**, his crown and his life. At the suit of the Commons **Oxford**, **Bolenbroke** and **Ormond** were disgraced and ruined. Those examples put an end to opposition on the part of the Ministry to the House of Commons, especially after an appeal to the people. No minister would dare to withstand the Commons; and much less would any Minister dare to withstand both Houses of Parliament. If any Ministry in England should attempt to carry out any important measure of public policy after it has been as emphatically condemned by the two houses of Parliament, as **Andrew Johnson's** reconstruction policy has been by the two houses of Congress, and by the people on an appeal to them at the ballot-box, the fate of **Strafford** would certainly be their's, and if the Crown should retain them in office and require them to carry it out, the fate of **Charles I.** would certainly overtake it.

Andrew Johnson, in his numerous speeches, proposed to appeal to the people at the ballot box. Therein he proposed to do substantially the same thing that Ministers do in England when they dissolve Parliament and order a new election. In such a case, if the people sustain the House of Commons, by their votes, it is exclusive; the ministry must be charged, and the new ministry must be formed so as to be in accord with the House of Commons and the people. No sovereign of England since the examples of Charles I, and James II, would have dared to retain a ministry against a vote of the House of Commons and of the people. The appeal to the people in regard to **Johnson's** reconstruction policy, has been taken, and the people by their votes have sustained Congress and condemned the President's policy with a distinctness and emphasis that can neither be called in question nor mistaken. That answer the President cannot disregard without doing what no British sovereign would dare to do, and what no British sovereign could do without costing him his throne; if not his head. **Charles I** was conceited and obstinate, just as **Andrew Johnson** is; his Prime Minister, the Earl of **Strafford** was talented, unscrupulous and unprincipled, just as **William H. Seward**, **Johnson's** prime minister is. But it all would not do. The obstinate opposition of **Charles** and his minister to Parliament, cost them their lives. Ought not their fate to be a warning to **Johnson** and his minister? Can they possibly be silly enough not to know that the American people will not be more tolerant towards their usurpations than the British people were towards those of **Charles** and **Strafford**? It is but a little while since the people showed how much they would dare and do to sustain the integrity of their institutions, and **Andrew Johnson** and his Cabinet may rest satisfied that the people will no more allow their institutions to suffer injury at their hands than at the hands of the Southern rebels. History is as sure to repeat itself from time to time as human nature is to remain the same from generation to generation. The Anglo-Americans of to-day are made of the same stuff as the Anglo Saxons who beheaded **Charles** and **Strafford**; they have the same love of liberty and law, and the same hatred of usurpation and tyranny that their Anglo-Saxon fathers had; and they will not permit the President to usurp the powers of Congress any more than their fathers permitted **Charles I.** to usurp the powers of Parliament. **Andrew Johnson** and his Cabinet will do well to reflect on this; and they will do well to reflect, moreover, that the American people, if necessary, will resort to as severe measures to sustain Congress as their fathers did to sustain Parliament in the days of **Charles I.**

It has been proposed that Congress shall institute an efficient system of competive examinations for appointments in the various departments of the civil service in which education, knowledge of business, scientific attainments, or practical experience are requisite, and that appointments made under this system shall be permanent, that is, shall be held until some real cause, aside from political differences, shall warrant and justify removal. This scheme has several advantages. It would secure competent men in subordinate official positions, curtail the vast power of the Executive patronage, and remove many places from the theatre of party contentions. The duties of the places would be performed in a more satisfactory manner than they now are, and the atmosphere of politics would be comparatively purified, by relating chiefly to principles rather than a distribution of the spoils.

Gen. Geary has tendered the office of Attorney General to **F. Carroll Brewster**, Esq., of Philadelphia, who was recently elected one of the Judges of the Court of Common Pleas in and for that county.

BECAUSE by invigorating the constitution and the frame they *avert sickness.*

BECAUSE (especially) their use prevents the atmospheric poison which produces *epidemics* from taking effect upon the system.

BECAUSE they cure *indigestion*, and impart unwonted vigor to the *stomach.*

BECAUSE they are the best *appetizing medicine* at present known.

BECAUSE they are the only preparation upon which persons of a *bilious habit* can safely rely to *keep the liver in good order.*

BECAUSE they *strengthen the nerves*, clear the brain, and cheer the animal spirits.

BECAUSE in case of an attack of spasms or bilious colic they are the best thing that can be administered on the instant.

BECAUSE they combine the three properties of a tonic, an alterative and a nervine in their utmost purity and perfection.

BECAUSE they are a specific against Ague and Fever and all the intermittents, and with all their potency as a preservative and a remedy, are as *harmless as water from the mountain spring.*

Patent Double-Acting

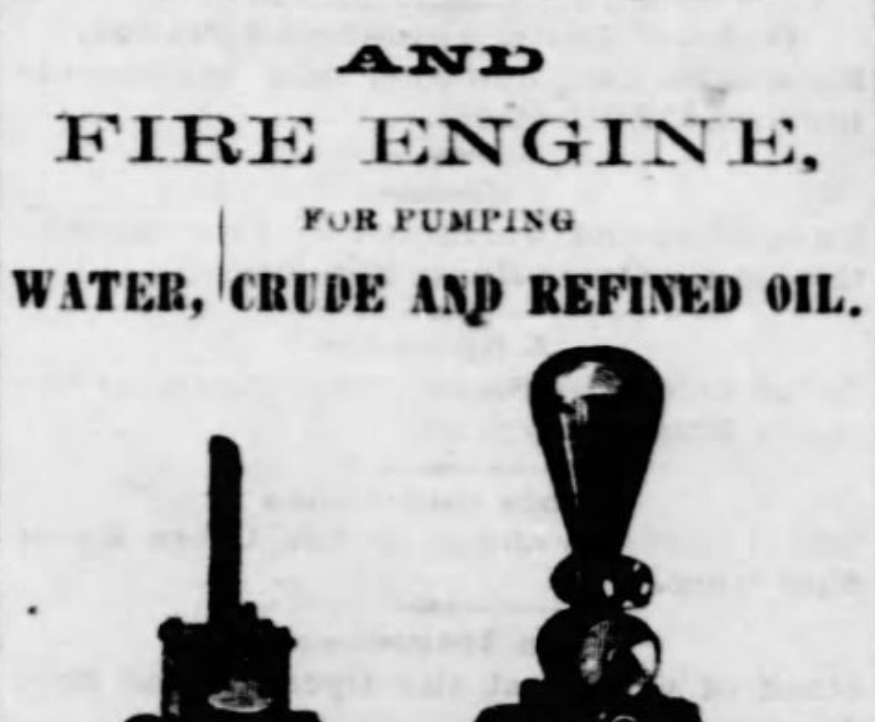
STEAM PUMP

AND

FIRE ENGINE,

FOR PUMPING

WATER, CRUDE AND REFINED OIL.



This Pump combines all the advantages of other styles of Pumps now in the market, with none of their defects. The Patent Steam-Valve applied to this Pump is a great improvement. It is worked by simply opening the Valve in the Steam-Pipe, and the Pump is sure to run at any point of stroke without the use of a starting-bar, or the necessity of pulling it by hand, to get it off of the centre. For Mining purposes this Pump is peculiarly adapted, not, and the Valve-Chest cleaned in a few minutes. As the pump can be removed by unscrewing one nut, when its construction is peculiar, as it does not require the neighborhood of a machine shop to keep it in working order. The Valve-Chest and Valves are made of brass or composition, and can be easily repaired or replaced when worn out. Any carpenter can make, in a few minutes, of some of the Valves used in this Pump. If the originals should give out. As a Boiler Feeder, it has no superior, as it can be set to run at any speed, either slow or fast, to suit the work it has to perform. The undersigned respectfully solicit the attention of their numerous customers and the public in general to the merits of this Pump, and desire those wishing such an article to call on

MRS. M. C. BROWN'S

METAPHYSICAL DISCOVERY,

Price, $4,00.

Offices—410 Arch St., Philadelphia,

51 Bond Street, New York.

No boring with instruments.
No blowing in the ears.
No snuffing up the nostrils or introducing wires.
No pouring medicines down the throat.

The METAPHYSICAL DISCOVERY will reach every spot that drugs and instruments will reach, and thousands of places besides.

Truth is mighty and must prevail; error is pregnated with death, consequently must sooner or later sink into oblivion.

ARE YOU PREJUDICED!

In consequence of the prejudice existing against patent medicines, it is my earnest desire that my Metaphysical Discovery should not be received or classed with patent medicines of the age. You ask me why? I answer, because it is *a scientific speciality*, differing in application, tendencies and results, from all other remedies and preparations which have ever gone before it. And further, because the Metaphysical Discovery is the result of inherited power to trace effects to their first cause; therefore let it be understood that the Metaphysical Discovery is not only the result of inherited power, but also the result of a life of rare philosophic research, and that too, in an unbeaten track.

Eyes, and They See Not.

Awake, ye slumbering world and behold yourselves and your children in the prison house of disease, from the cradle to the grave, betake yourselves to thought—think and live. The world writhes in pain and passes into untimely graves. Mark, learn, that your friends die through experimenting on. Every effect driven is a death blow to the physical system. I have never met an individual who was treated for anything but effects. There are many agonizing hearts, sorrowful homes and grassy graves through house of instruments which torture, and medicines which destroy the system.

The Discovery consists of three distinct preparations, which pass into the system by absorption through the Eyes, Ears and Scalp.

It is packed in a neat wooden case, and will be sent to any address in the world, on receipt of the above price.

CERTIFICATES OF CURES.

I, S. C. Chase, of Cambridgeport, Mass., do certify that I have been troubled with a bad catarrh for upwards of thirty years. I obtained Mrs. M. G. Brown's Metaphysical Discovery, and in ten minutes after using it found relief. I have used the medicine faithfully, and believe it went to the root of my disease. I feel as if catarrh was eradicated from my system, the foul effects of the sad disease having ceased. My wife also has been suffering from a complication of diseases. On using the Discovery, clotted blood and matter rushed from her head, and she found immediate relief, and has been gaining health ever since. We heartily recommend the Metaphysical Discovery to all who suffer.

CURE OF CATARRH, ASTHMA, &c.

Mrs. Cheever, residing at No. 6 Allen street, Boston, Mass., says: "I have been troubled for years with asthma, catarrh, and sore throat. I suffered from continual pain and dizziness in my head, cold feet, &c.; for eight years could not attend to my household duties, and had despaired of ever being cured. Providentially learning of Mrs. M. G. Brown's Metaphysical Discovery, I obtained it. The result is, I am entirely cured, and determined to keep a box of it always in my house."

MRS. GEORGE VAUGHN'S CERTIFICATE, OF MALDEN MASS.

This is to certify that I have suffered for ten years from dyspepsia, catarrh, and a complication of diseases. For the past year I have been restless, and could not sleep at night. So exhausted had I become, that I was unable to do my household duties. I became so cold that it seemed impossible to keep warm. For sometime my eyes were very much diseased, and my hearing dull. Myself and friends considered me in Consumption. In this state I went to Mrs. M. G. Brown and obtained the Metaphysical Discovery. I have used one box faithfully, and no language can tell the benefit received from it. My eyes have become clear and strong. My dyspepsia is entirely gone. I can now do my own work, and feel altogether a new being. My friends say I am gaining flesh. I know I was I could not have lived. I feel grateful to God for the benefit I have received. I recommend Mrs. M. G. Brown and her mode of treatment to all who suffer as I have done.

CATARRH CURED.—MR. JEROME A. O'CONNOR, OF OLD CAMBRIDGE MASS.

This is to certify that I have been troubled with a bad catarrh for the last five years. This winter it became unusually troublesome. I was obliged to rise at night, owing to the mucus, which would have suffocated me. I obtained Mrs. M. G. Brown's Metaphysical Discovery some weeks back, used it faithfully, and my catarrh began to give way at once. I now consider myself a cured young man, being entirely delivered from the terrible disease of catarrh. My sister has also been diseased in her head and eyes from childhood, so much so that the family thought she could not live. In the use of the Discovery she has received equal benefit with myself. We cordially recommend the Metaphysical Discovery.

MISS E. LOGAN'S CERTIFICATE.

I, Emma Logan, do hereby testify that I have had a severe cough for six years; would cough and raise for three hours at a time; often I could not lie down at night; going up stairs, any work would exhaust me. I have been taking medicine and doctoring all the time, but was still getting worse. Providentially a friend procured Mrs. M. G. Brown's Metaphysical Discovery. I have used it one week, and my cough is nearly gone. I have got rid of the tightness in my throat. I can now take a long breath, which I could not do before. I can go up and down stairs without feeling any fatigue. I feel disease is fast leaving my system. No. 374 Hanover street, Boston, Mass.

A REMARKABLE CURE.

A case of the worst type of Chronic Sore Eyes of Twenty-five years standing cured by my Metaphysical Discovery.

I, Eliza B. Jeffries, do certify that I have been suffering for twenty-five years with diseased eyes, taken from measles when a child. I cannot describe the nature of all my sufferings, but will state that my eyes ran corruption and water all the time. My cheeks also broke out down to my chin, and the matter from both eyes and face kept constantly dropping on my dress. All the doctors I applied to failed to render me relief, and I despaired of finding it until learning of the wonderful cures made by Mrs. M. G. Brown, when hope entered my breast. I went to see her, and brought home with me the Metaphysical Discovery. I used it according to directions, and now most solemnly and thankfully declare, that through the blessing of God and the use of Mrs. M. G. Brown's medicines I am a cured woman. ELIZA B. JEFFRIES. Holmesburg, Pa.

FIVE NEW CASES OF DEAFNESS IN AND AROUND PHILADELPHIA.

Noises in the Head, Running of the Ears, Stiff Neck and Sore Throat cured by Mrs. M. G. Brown, 410 Arch Street, Metaphysical Physician, Professor on the Eye, Ear, Throat and Scalp.

The following persons have been cured of the above diseases, through the use of my Metaphysical Discovery:

Miss Rebecca Watson, St. Paul street, Frankford, cured of deafness and noises in the head; can now hear the children called by their names in the next house.

William Elnwechler, 1349 North Front street, a lad of about 15 years, was very deaf; can now hear the notes distinctly on the piano. Could not hear a sound before. His whole system is benefitted, as he was an invalid.

Peter Kelly, 1627 South Second street, was quite deaf in one ear, and partially so in the other, has regained the hearing of both well.

Daniel Humphreys, 21 Darby township, had a swelled and stiff neck for eight years; could not turn his head without turning round his whole body; had also a large lump, size of a ball, and hard, under his chin, for one year. Both have disappeared through the use of my Metaphysical Discovery.

A son of Captain David Ware, in Wilmington, Delaware, has been cured of deafness and running of the ears, of 15 years standing; spent large sums of money on different remedies; could find no benefit; procured my Metaphysical Discovery, which immediately cured him.

CERTIFICATE FROM THE REV. P. S. HENSON, PASTOR OF THE BROAD STREET BAPTIST CHURCH, PHILADELPHIA.

From injuries received in my right eye when a boy, a chronic inflammation has been produced, in consequence of which I suffered martyrdom. Every moment of my waking life was embittered, and I was frequently unable to sleep at night. A variety of remedies has been resorted to without success, and I entertained the purpose, as a last resort, of having the ball taken out of the socket, in the hope of thus finding relief. In the meantime, most providentially, I noticed one day in a shop window a bottle of POOR RICHARD'S EYE WATER. I had never heard of it before, and I determined to try it, and did, with the most delightful results. In a few days the painful irritation was removed. I could bear the strongest light, and went forth as it were to the enjoyment of a new life. I now keep a bottle of it always in the house, and if my eyes seem at all disposed to annoy me, I give it a dose, and there is an end to it. I would not be without it for any amount of money. I have occasion to say further, that my wife used to suffer severely at times from protracted pain in and over her eyes, and she has found Poor Richard's Eye Water a sovereign specific in her case, giving her almost instant relief.

Grateful to God for the benefit I have personally received, I cannot but commend the preparation most cordially to those who have suffered like myself.

CITY AND SUBURBAN.

(ADDITIONAL LOCAL NEWS ON FIRST PAGE.)

The Capacity of Charles Ramsey.

The negro is the all-absorbing topic of conversation nowadays, in all councils, national and private, and his future, his capacity for civilization, the insoluble problem of "what to do with him," are discussed universally. We remember once to have read of a lost wanderer, who, after roaming through savage lands, saw a gallows, and thanked God that he had reached civilization at last. With this view of civilization no hesitation need be had in ascribing to one colored man, Chas. Ramsey, a capacity equal to the smartest white man for at least the lower grade of civilization that is characterized by the jail and the penitentiary. Indeed if he keeps on, we imagine that even the stiffest conservative will be compelled finally to admit that Charles has capacity enough to win even the gallows. The problem of "what to do with him" is so easy of solution in this case, and has been partially disposed of by Mayor Morrison, of Allegheny.

Charles Ramsey is a negro, residing in the Third Ward, Allegheny, and has achieved considerable reputation in his way. He has been employed in the capacity of steamboat cook for a long time. So far as we can learn, those who have known him longest have had the most opportunity of knowing a first-class scoundrel. He certainly has an unlimited capacity for mean deviltry. The exercise and development of this faculty has brought him and his neighbors to infinite trouble, and once, in following the bent of his inclinations, Charles was led to the Penitentiary for a term of years, on a charge of robbery. Since his release he has gone ahead in the career he has chosen until he is now in a fair way to bring up at his old stopping place again.

On the 20th of October, Charles, with two or three other colored persons, was in Berger's beer saloon in the Fourth ward, Allegheny, and while there an honest German named Henry Meyer came in. Ramsey came up to him familiarly, laid his hand on his shoulder, and after a little conversation, insisted that Mr. Meyer should have a glass of beer. After the beer had been drank, the colored men left the saloon and Mr. Meyer shortly afterwards ascertained that his watch, a silver hunting case worth $5, had been stolen from his pocket. He immediately made information before Mayor Morrison, charging Ramsey with the theft. The accused was arrested and on the 24th was required to give bail for Court.

At the time of the hearing on the 24th, a colored woman named Isabella Pearce came to the office and said she had been waiting to hear of Charles' arrest so that she might say her say against him. She thereupon proceeded to make information against him for the larceny of her pocket book containing $15.75. The prosecutrix alleges that, on the night of the 9th of October, she was with a party of negroes at Mrs. Anderson's house, in Reserve township, and Charles Ramsey was one of the party. Whisky formed a prominent feature of their merry making, and before morning the whisky became exhausted. An assessment was made, and Mrs. Pearce in paying her share, displayed a well filled pocket book to the eyes of Ramsey. Subsequently the wealthy female, becoming exhausted with much jollity, retired to Mrs. Anderson's private room and went to sleep. During her nap, Mrs. Anderson, in passing the room, saw Ramsey coming out of it, and addressed him, but he went away without answering. When the weary woman awoke she found that her pocket book and money had been stolen. Of course, when Mrs. Anderson related her facts, they knew where the money had gone, and accordingly the information was made as stated. On this charge, also, the accused was held to bail to answer at court.

Charles had not worked out his destiny yet however, nothwithstanding his tribulations, he could not let his active fingers still. On the 16th of the present month, he went into the shoe store of Messrs. Huckenstein & Co., on the corner of East Lane and Second street, in the Third ward, Allegheny, and demanded to see some gaiter shoes. A lady was attending the store and showed him a box of gaiters, and while he was examining them, she turned her attention to something else. Ramsey went out without purchasing, and shortly afterwards it was ascertained that a pair of the gaiters were missing.

Mr. John Hillenbrand, a member of the firm, at once started after the suspected Ramsey, and found him in the yard of a cooper shop, hiding something. The man was immediately captured, but denied with the greatest dignity a knowledge of the shoes. Search, however, on the spot where he had been found, revealed the gaiters, and the thief was taken before Mayor Morrison again. This time his friends having become disgusted with him, refused utterly to bail him, and he was forced to go to jail, there to await the action of the Court.

Certainly no person, whatever may be his opinions of the *civilizability* of the colored race in general, will not entertain any doubts concerning the capacity of Charles Ramsey.

Made Happy.

In our issue of yesterday we mentioned the fact that Eliza Butler had sued Thomas Hillands for affiliation, before Alderman Morrow, and that Thomas refused to make Eliza his wife. After our quitting the temple of justice, Thomas showed signs of relenting and soon he was surrounded by a half dozen persuasive gentlemen, who, in one voice advised him to take the blushing Eliza to his bosom, accepting her as flesh of his flesh, and bone of his bone. Thomas spoke not a word but listened to his counsellors, while he glanced occasionally over to the corner where the object of so much concern sat weeping bitterly for his obstinacy, and amid her sobs, now and then reminding him of his vows, in words almost inaudible save to the dignified dispenser of justice, who sat mounted on a high stool immediately in front of her, where he could scan closely every motion of the fair one, in which duty he seemed to take as much interest as if he was a physiognomist and was studying her dispositions in her ruddy dumplin shaped face. The high resolve of Thomas finally melted and he announced his determination of "having done with it." By this he meant just exactly the opposite, or that he was willing to enter the crucible of connubiality as soon as the necessary preliminaries could be arranged. Wrapping his great coat about him and assuming—by drawing down his eyebrows—a patriarchal air, the magistrate ordered the candidates for matrimonial honors to stand together, which command the expectant bride answered by "we will, sir," although she still retained her seat, notwithstanding the acquiescence given to the order. With increased dignity the Alderman repeated the words, and with the aid of a definition by his associate, the twain were ready for the sacrament. At each interrogation in the ceremony, the fair Eliza would answer by a fervent "Yes, sir," whether the question was put to her or not.

At length the twain were declared one, and nothing remained but to pay him who had linked them for his trouble. But unfortunately Thomas had no money with him and he was therefore forced to leave his bride and hie to Grant street, returning in a few minutes with a handful of British sovereigns, from which after turning it over in his hand several times, he selected one and gave it to the magistrate. After doing so he took Eliza affectionately under his arm and the twain started for New York. Thus be it ever.

A Man Commits Suicide from the Conviction that He is His Own Grandfather.

A melancholy case of suicide occurred on Sunday on the Podunk Farm, near Titusville. The name of the unfortunate man has not yet been discovered, but it appears from the following pathetic effusion, found in his left boot, that the suicide was not instigated by the exploration of "dry holes," as at first supposed:

"I married a widow who had a grown up daughter. My father visited our house very often, fell in love with my step-daughter and married her. So my father became my son-in-law, and my step-daughter my mother, because she was my father's wife. Some time afterwards my wife had a son—he was my father's brother-in-law, and my uncle, for he was the brother of my step-mother. My father's wife, i. e., my step-daughter, had also a son; he was of course my brother, and in the meantime my grandchild, for he was the son of my daughter. My wife was my grandmother, because she was my mother's mother. I was my wife's husband and grandchild at the same time. And as the husband of a person's grandmother is his grandfather, I was my own grandfather."

We must confess that it was a rather singular complication of kindred, but we see no reason for committing suicide on the discovery that your wife is connected to you by two of the tenderest ties in the world of love. We hold that their felicity should be the greater in consequence.

City Mortality.

Dr. George L. McCook, Physician to the Board of Health, reports the following interments in this city from November 11 to November 18, 1866:

Males	18	White	20	Total	23.
Females	5	Colored	3		

Diseases.—Disease of Heart, 1; Paralysis, 1; Accidental Shooting, 1; Disease of Stomach, 1; Old Age, 1; Dropsy, 1; Consumption, 3; Burned, 1; Diptheria, 2; Atrophia, 1; Catarrh Fever, 1; Small Pox, 1; Still Born, 3; Typhoid Fever, 1; Conjestion of Lungs, 1; Conjestion of Brain, 1; Constitutional Weakness, 1; Bilious Fever, 1.

Of the above there were: Under 1 year, 8; from 1 to 2, 1; 2 to 5, 2; 5 to 10, 1; 15 to 20, 1; 20 to 30, 4; 30 to 40, 1; 40 to 50, 2; 60 to 70, 1; 70 to 80, 1.

Charged with Larceny.

John Hawkins appeared before Alderman Lynch, yesterday, and made oath, charging Hugh S. Fleming and Hugh McLinden, with the larceny of a set of laboring tools, such as shovels, picks and spades, from the residence of the prosecutor in Allegheny City. It appears John Hawkins was arrested and lodged in jail on a charge of fraud, preferred against him by the defendants who, as soon as they had him safely incarcerated, proceeded to take possession of the articles named, without having gone to the trouble of getting an attachment. Warrants have been issued for the arrest of the accused. Both of the accused are men of well known integrity, and will no doubt furnish ample evidence of their innocence.

An Objectionable Stye.

Patrick Bradly claims the proprietorship of a certain piece of real estate in the Eighth ward, on which William Campbell had erected a pig-stye and surrounded with a huge fence. Brady thought the stye looked not well in his eye and he further objected to the fence as it prevented his hogs from finding a shelter, from the assaults of the weather, within the said structure, and he therefore requested that both the stye and fence be removed. To this Campbell dissented, and Bradly, without repeating the request, appeared before Alderman Lynch and charged his neighbor with trespass. A warrant was issued and the accused arrested and held to bail for a hearing.

Assault and Battery.—Elizabeth Kinney came to the office of Alderman Lynch, yesterday, and instituted legal proceedings against John S. Bailey, for assault and battery. A warrant was issued for the arrest of the accused.

EARLY TELEGRAMS.

FROM WASHINGTON.

Investigations by the Retrenchment Committee—More Cotton Frauds Developed—Influential Parties Implicated—The Impeachment of the President—Payment of Bounties to Colored Troops.

NEW YORK, Nov. 23.—A *Herald's* special says: The investigation going on by the Retrenchment Committee has developed facts which implicates parties occupying high influential positions under the Government in cotton frauds. A great deal of fraud, more than at first supposed, has been practised upon the Government and citizens of the South by the cotton agents. It appears that these agents were in the habit of confiscating large quantities of cotton in the name of the Government, which, after keeping in their possession for a short time they would turn it over to an outside party who sold it and divided the proceeds with the agents. Another game which was resorted to extensively by these men was to release the cotton upon the payment of a handsome bonus.

We have a report here that a number of prominent radicals had a meeting in Philadelphia on the 20th inst., at which articles of impeachment against the President were prepared. They are to be submitted to a caucus of Republican members of Congress on the Saturday preceding the meeting of Congress. The names of the parties attending the caucus in Philadelphia will be furnished in due time.

Official notice is given that the President will have no time to devote to office seekers until after the meeting of Congress.

At a conference between the Second Comptroller and Second Auditor, in relation to bounty in cases of colored troops, it was decided that the proof of freedom on the 19th of April, 1861, should be no longer required, but full effect given to the law of Congress approved June 5th, 1866, and the soldier accorded the benefit of the presumption if the contrary did not appear upon the muster-roll, and the bounty allowed if otherwise entitled.

The Second Auditor has decided that where discharged colored soldiers have applied or may hereafter apply to this office for arrearages of pay not paid on final discharge, or for any bounty provided by the act of July 22d, 1861, he will also allow in the settlement of such claims the additional bounty provided by the act of July 28th, 1866, if such bounty shall be found due.

The Commissioners of Indian Affairs is informed that the reports of hostility on the part of the Cheyennes and Arapahoes are without foundation. The country adjacent to the Smoky Hill route is perfectly safe for travelers.

Another Attempt to Swindle.

NEW YORK, November 23.—A Detroit special to the *World* says: It has transpired here that a prominent and old established drug house in New York has been made the victim of several just such swindles within the past few months as that which has been discovered in Boston. In the last swindle or attempt, upon the New York firm, the party not only bought goods while in the city, but ordered further shipments at almost every part of his route to the west, thus running up a bill for thousands of dollars, which, but for the sharpness of the firm in following up the goods, would have been lost, as were thousands in similar cases preceding it. The object was to get the goods, sell out quickly pocket the money and decamp—in other words, a second edition of the Boston game.

The New York Distillery Frauds.

NEW YORK, November 23.—The cases of Wilson and Cochran, who were charged with implication in the recent Brooklyn distillery frauds, were before Commissioner Newton, yesterday, but owing to the absence of the counsel for the accused, were adjourned till to-day.

Another distillery was seized on Wednesday, in Williamsburg, where apparently another shrewd scheme was going on to outwit the law. The still and distillery are kept in a seemingly unfinished condition, and the owners intimate that they will take out a license as soon as they finish repairing their establishment. The officers discovered a still in full blast about four o'clock in the morning, and arrested the proprietors.

Stolen Money Recovered.

NEW YORK, November 23.—The *World's* Boston special says: Notes and securities amounting to $3,500, stolen last week from the counting room of Mr. Faxon, Pearl street, were found yesterday, lying in a wharf shed in Broad street, in a position likely to be easily seen. About $700 in money now constitutes the loss.

The liquor prohibition question will go strongly in municipal districts in election. The Republican nominee for Mayor is a prohibitionist, but is understood to be gained to let the liquor question alone. The Democratic candidate is a temperance man in practice, but favorable to the license law. Both men are of superior ability and character.

Japanese in New York.

NEW YORK, Nov. 23.—Two young officers of the household of the Prince of Higo, a potentate of the Japanese Empire, are sojourning in this city.

JOHN D. BAILEY,
Stock and Real Estate Broker.

FOR SALE—400 Acres of Coal Land, lying immediately upon the Ohio River, 20 miles below Gallipolis, and 185 miles above Cincinnati. On the above tract is a four foot vein of Coal, which, for general purposes, is not surpassed. It is entirely different from the Southern Ohio Coal; contains but little sulphur, forges and cokes well, and for making steam cannot be excelled. The location being about midway from Pomeroy and Hanging Rock, must make it valuable for coaling boats. There is a water front of ¾ of a mile, with a good landing at all stages of the river. An entrance has been run in the hill about 300 feet, track finished to river, together with the necessary fixtures for mining and delivering coal afloat. On said tract is first-class double Portable Circular Saw Mill together with a Portable Grist Mill, all in good running order, and plenty of the very best oak, ash and poplar timber. Would sell one-half interest if desired, to a party with experience and capital for working same.

FOR SALE—231 acres Coal, including 51 acres surface, on the East side of the Ohio River, three miles above Wheeling, with right of way to river. The close proximity to a good market at Wheeling, together with the fact that the coal crops out high enough in the hill to be used profitably for rolling mill purposes, makes this a good investment.

PURE CALIFORNIA WINES.
GURNER & CO.,
No. 80 Cedar St., New York,

Offer for sale these valuable Wines, which are gaining public favor with astonishing rapidity, and whose unprecedented and unrivalled popularity is not without merit. They have only to be fairly tested to give them the preference over all others. As a purifier of blood they excel all other Wines, and the numerous certificates which have voluntarily been tendered from the most eminent physicians, as well as gentlemen in every position in life, are proof conclusive that these Wines are useful in all cases for which they are recommended.

The following brands are now offered by us. They comprise all the varieties now grown in the State suitable for sale:

WHITE, or HOCK WINE—Of a light straw color, very delicate and fine flavored.

CLARET—A superior wine for table use.

ANGELICA—A rich and naturally sweet wine, much admired by ladies, and valuable in the sick chamber, as it makes fine wheys, and jellies. It is a fine dessert wine, and well adapted for Communion purposes.

MUSCATEL—A light colored, highly aromatic wine. Very similar to the celebrated Tokay.

PORT—Deep red color, fine flavor, and in many respects similar to the old wines of Lisbon.

GRAPE BRANDY—The pure distillation of our wines.

WINE BITTERS—A very agreeable tonic and a sure remedy for the diarrhea.

This is one of the most valuable combinations of a useful and an agreeable beverage that has ever been offered to the public. Millions of bottles were sold throughout the North during the last four years, and wherever introduced it has proved a welcome addition to the invalid table, the family circle, and the bachelor's sideboard.

Ladies who have lost strength and appetite, and suffer from nausea, vomiting and vertigo; gentlemen who "don't feel very well" just before breakfast or dinner whose stomachs are out of order and whose systems are generally deranged; mothers weaning children and suffering from general debility; children of sickly nature and sour, dyspeptic constitutions; travelers who have occasion to change their water; and all who live in malarious districts and are subject to miasmatic influences, will find it one of the most valuable invigorators that can be taken.

It was used very extensively in 1861, with such general satisfaction that in offering it to the public now we deem it unnecessary to publish any of the many certificates that we have received, testifying in the very strongest terms in its favor. All that we can say is to guarantee an article PURE AND UNADULTERATED.

It has been given to little children suffering from weakness and weak lungs with most happy effect. One little girl in particular, with pains in her head, loss of appetite and daily wasting consumption, on whom all medical skill has been exhausted, has been entirely restored. She began with but a teaspoonful a day. Her appetite and strength rapidly increased and she is now well.

VERY LATEST TELEGRAMS.

FROM WASHINGTON.

The Conservatives Advise Negro Suffrage—The Monroe Doctrine—Our Relations with Mexico—Fine Remitted by the President—Receipts from Customs.

WASHINGTON, November 23.—In reply to the accusation that the Secretary of State was complotting with the French Emperor to trample out the Monroe Doctrine and to effect other analagous purposes dishonorable and treasonable, the *Times* says editorially: "When the documents setting forth the more recent negotiations concerning this Mexican matter come before the country, which they soon will do, it will be seen that there has been a consistency about our diplomacy, from the beginning to the end, such as has characterized few negotiations of an equally important and prolonged kind. It will be found that the interests and the honor of this country, and the traditions and sentiments of its people, have been no less studiously regarded and upheld throughout than the just rights of the Republic of Mexico, and to descend to details, for the information of all concerned, it will be discovered that we have neither acknowledged the claims of the French usurpation, nor agreed to assume its debts."

Admiral French Forrest, formerly of the United States navy, and late of the Confederate navy, died here yesterday, in the 71st year of his age.

The Conservative Army and Navy Union, at their meeting last night, after a warm discussion, passed by a two-thirds vote, a series of resolutions declaring that the proposed Constitutional Amendment ought to be rejected, and that, in the judgment of that organization, it is clearly the duty of the Conservative press throughout the country, to appeal to the Northern and southern States to extend suffrage to the negro on such a qualified basis as may be deemed proper and just.

The President has directed the remission of a fine of $6,000 which was imposed upon Robt. O. Clark, in August, 1866, by the United States Court of the Northern District of New York, upon conviction of being an accessory to smuggling. The fine is remitted upon the recommendation of Hon. Thurlow Weed and others.

The receipts from Customs from the 10th to the 17th instant are as follows: Boston, $397,278; New York, $1,963,789; Baltimore, $129,290. At New Orleans the receipts from the 4th to the 10th instant were $132,618, and at San Francisco, from the 20th to the 27th ultimo, $133,444.

Treasurer Spinner received to-day a letter from a party signing himself "Repentance," enclosing one hundred dollars as being due to the Government.

TRADE.

The Depression in the Dry Goods Trade—Failure of Shoe Dealers—Heavy Losses to Cattle Dealers.

NEW YORK, November 23.—The superintendant of the dry goods exchange in New York, gives notice that it will hereafter be closed in consequence of the unsatisfactory condition of the trade. Speaking of the depression in the dry goods trade, the *Journal of Commerce* remarks: The leading houses are very strong and well able to bear up under the stringency: a little excitement has been felt at times, owing to the high rates at which some of this class has been offered in the street, but there has appeared to be no real ground for apprehension, and all good houses in this o any other department of business, will obtain all the help they need to carry them through the crisis. It is said of the prints that some of the importers are making arrangements to return to Europe a portion of the stock held in bond, and that considerable amounts of dry goods are included in this arrangement. We can not find, upon examination, any large movement of this sort. A few invoices have been prepared for export, and contain styles of goods too high for this market and likely to do better abroad, but the total amount of this reshipment will not be sufficient to affect exchanges.

In the shoe trade the Lynn *Reporter* mentions four new failures in that city on Monday last, making nine within the past month, and says if the present dull spell in the trade continues more will be likely to go.

Of the cattle market the Albany *Argus* says: We have never known prices to drop so rapidly and heavily as they have during the past five or six weeks. The losses sustained by dealers must be remarkably heavy—certainly over half a million dollars on the beeves that have passed through our State from the West since the middle of October, and probably nearly or quite as much on hogs. One dealer who had about 1,000 head of cattle in market last week, lost upwards of $30 per head on them. He will have 1,200 head in this week, on which it is altogether likely he will lose as much more. It is not uncommon to hear of middle men who are losing every week $1,000 or more on droves of less than one hundred head. Some have already exhausted their capital. Others have swamped both capital and credit, and more must go under. Nobody pretends to know whether the bottom has been reached, but buyers from New York and the East are acting with great caution, buying only enough to supply regular customers, and are taking whatever else that goes through their hands only on commission; there is no disposition to speculate.

FINANCIAL.

The Five-Twenty Bonds—Important Correspondence Between Secretary McCulloch and New Yorkers.

WASHINGTON, November 23.—Secretary McCulloch denies that he is converting a larger number of bonds this week than were converted last week, and says that there is no cause to apprehend a stringency of the money market. He will ask Congress to give him power to sell particular kinds of bonds when their price is very high, and to redeem other classes of bonds when the market is low. The following is the correspondence relating to the Five-Twenty bonds in coin, upon the announcement of which the London *Times* made its sneers of yesterday concerning American securities:

NEW YORK November 23d, 1866.

The Hon. Hugh McCulloch, Secretary of the Treasury, Washington, D. C.

DEAR SIR:—We have good reason for believing that an impression prevails very generally in London, and to some extent, in Paris and Germany also, that the United States Government will avail itself of the option of paying the Five-Twenty bonds of 1862, next year, and that the liquidation will be made in currency. This idea keeps the bonds much below the price at which they would sell, were it understood that the Government regards itself as bound to pay them in gold. Should you deem it proper to give an expression of your views as to the kind in which the principal of the bonds is payable, of which we could make use through our European circular, we have no doubt the opinion would be of much interest to foreign investers in our funds. We are, dear sir, your obedient servants,

L. P. MORTON & Co.

TREASURY DEPARTMENT, Nov. 15, 1866.

Gentlemen: Your favor of the 13th inst. is received. I regard, as did also my predecessors, all bonds of the United States as payable in coin. The bonds that have matured since the suspension of specie payment have been so paid, and I have no doubt that the same will be true with all others, this being, as I understand it to be, the established policy of the Government. The 5-20 bonds of 1862 will either be called in at the expiration of five years from their date and paid in coin, or be permitted to run until the Government is prepared to buy them in coin.

I am, very truly, yours,

HUGH MCCULLOCH,
Secretary of the Treasury.

To Messrs. L. P. Morton & Co., New York.

FROM CALIFORNIA.

Mineral Specimens for the Paris Exposition—Bigler's Appointment Distasteful.

SAN FRANCISCO, Nov. 21.—Three thousand mineral specimens have been collected for the Paris Exposition of next year. The prospect for sending a section of the big tree of Calaveras has been abandoned.

The following message, signed by Governor Low, the State Comptroller, the Auditor, Attorney General McCulloch, and Adjutant General Thais, was transmitted by telegraph today to the California delegation in Congress: "The appointment of John Bigler as Assessor of Internal Revenue at Sacramento is exceedingly distasteful to all Union men. Cannot the President be induced to rescind it? If he will not, prevail upon the Secretary of the Treasury to delay the organization of affairs under Bigler. Any other course will throw the district into confusion, as none but rebels will serve under Bigler."

Fenian Meeting at St. Louis.

ST. LOUIS, November 23.—The Stephens wing of the Fenians in mass meeting at their headquarters last night, adopted resolutions reaffirming confidence in Stephens, and condemning another movement on Canada as a waste of blood and material, warning their brethern against any further appeals in behalf of their condemned friends in Canadian prisons, on the ground that nothing can be done in time to save them, and expressing the belief that England dare not execute the sentence of the Canadian Courts, but if she does their only hope of successful retaliation and establishing Irish nationality is prompt and energetic co-operation with their Irish brethren on Irish soil, and to this end they urge immediate organization and bountiful contributions of money and arms.

Reform Meeting.

BALTIMORE, November 23.—The second annual meeting of the Baltimore Association for the moral and educational improvement of the colored people, was held this evening at the new Assembly Rooms. An interesting report was read, showing the result of the past year's work, and the modes by which the society had been aided, as well as hindered. The receipts of the year amount to $4,,000. The expenses have exceeded the receipts by over $10,000. Of the receipts, 4,700 was from the New England Freedmen's Aid Association, $920 from the New York Association, $2,500 from the Pennsylvania Freedmen's Aid Association, $500 from the Freedmen's Association of Philadelphia, and $3,800 from friends in England.

Mexican Affairs—The President and Specie Payments.

NEW YORK, Nov. 23.—The *Commercial's* Washington special says: The Cabinet meeting yesterday, was to consider important despatches from Paris on Mexican affairs. Despatches were immediately sent to Gen. Sherman and Minister Campbell via New Orleans. It is understood that the despatches from Paris are considerably complicate on the Mexican question and may lead to the most important results.

The President will endorse in his message a plan submitted by the Secretary of the Treasury, for a return to specie payments.

Life Insurance—The Bond Robbery.

NEW YORK, Nov. 23.—The Chamber of Life Insurance had a meeting this morning in the rooms of the Chamber of Commerce. Among other business transacted was the adoption of by-laws, regulating the duties of its officers, and the passage of a resolution recommending that a case be brought before the United States Supreme Court, to test the constitutionality of the Inter-State Commerce of Life Insurance companies.

The examination in the Lord bond robbery case was to be resumed to-day before Justice Dowling. It was further postponed to Monday.

The Fenians Ask for New Trials—Argument of Counsels.

TORONTO, Nov. 23.—In the Court of Common Pleas to-day, before the Chief Justice and Justices Adams and John Wilson, Mr. McKenzie applied for a rule calling upon the Attorney General to show cause why the verdict should not be set aside as contrary to law and evidence, and a new trial had in the case of the Queen vs. Sliven, one of the Fenian prisoners under sentence of death in the old jail. The grounds on which the motion was based, were that the indictment charged the prisoner with two distinct offenses, that of committing an overt act as a British subject as well as an American citizen; that the alleged offense being committed in the county of Welland could not be tried in the county of York, being one of two united counties, on the ground of misdirection by the Judge; and further, that the Judge who took the Assizes and tried the prisoner without an order from Her Majesty's Executive Council contrary to the provisions of the statute, the prisoners being, at and before the time of their trial, in custody, under the provisions of the statutes, and indicted and convicted for some of the offences contained therein. Mr. Justice J. Wilson stated that in reference to the last ground of objection, he had already filed an order of Executive Council with the Clerk of the Crown.

Mr. M'Kenzie contended that if so, there was nothing of the face of the order to show that any members of the Executive Council were present at the time the order was made, and that consequently the order was null and inoperative.

The Chief Justice stated that the Court did not propose granting a rule in any of these cases unless it was clearly shown that there was some foundation for the objections.

The Crown authorities have decided that the Fenian prisoners confined at Bedford shall be removed to Sweetsburg for trial. There is not as much bitter feeling manifested by the citizens of Canada East towards the Fenians as one meets with in the upper Provinces. There is great excitement among the lower classes to know the fate of the Fenians. The authorities will find it a difficult matter to empannel a jury to try them.

Case of the Privateer Meteor.

NEW YORK, November 23.—The case of the alleged privateer Meteor was up before Judge Nelson in the United States Circuit Court yesterday, on a *pro forma* discussion as to fixing a day for hearing the argument in the case, in connection with Judge Betts decision condemning the vessel. The United States District Attorney was in favor of letting the case go at once, without argument in this Court, to the Bench of the Supreme Court of the United States, at Washington. This will in all probability, be the course adopted.

From Toronto, C. W.

TORONTO, C. W., November 23.—The gunboat Hercules has gone into winter quarters at Kingston.

Seventeen thousand stand of arms—Peabody breech loaders—have been purchased by the Government for the volunteers, and are now being distributed among the different artillery and cavalry corps of the province.

Miller, of Cecil county, a Commission to award compensation to the loyal slave owners of Maryland whose slaves were drafted into the army during the war. This Commission is created under an act of Congress passed at the last session.

Old Bowery Theatre Sold.

NEW YORK, November 23.—The old Bowery Theatre was sold at auction to-day for one hundred thousand seven hundred dollars. There are mortgages on the property amounting to one hundred and ten thousand dollars.

River and Weather at Louisville.

LOUISVILLE, Nov. 23.—River falling slowly at eight feet eight inches. Weather cloudy and moderate.

RIVER NEWS.

The river rose a few inches at this point on Thursday night, but it fell again yesterday, and last evening it was about at a stand with six and a half feet in the channel. At Oil City the Allegheny was reported falling with forty-two inches in the channel. The weather yesterday was cloudy and cold with a sprinkling of snow at intervals.

The only transient arrival we have to report is the Quickstep, from Cincinnati, she had an excellent trip, having a good freight list, and a large number of passengers. The Robt. Moore, for Portsmouth, and the Leni Leoti, for Parkersburg, were the only departures.

We learn from private sources, that there is not enough water on the falls at Louisville to let the coal fleet pass over, and that part of it destined for below was compelled to go through the canal. Some of the boats we understand, that left here with the intention of going below Louisville have abandoned that idea and are turning back from that point. The late "run" was a very successful one, but very few accidents occurring, and these were not of a very serious character. The down river markets however, are reported glutted, and while this, we have doubt, is very satisfactory to the citizens of Cincinnati, Louisville, Memphis, New Orleans and other places of less importance, it is pretty "rough" on our coalmen.

The Allegheny river packets appear to be doing a very fair business, and the same can be said of the Pittsburgh and Parkersburg packets.

The Quickstep, Capt. Shouse, with Mr. G. W. Floyd in the office, is the regular Saturday packet for Cincinnati to-day, leaving promptly at noon. This fine steamer has become a regular institution in the packet trade between here and Cincinnati, and is so regarded by shippers, and the travelling public. Her accommodations for passengers are excellent, and her officers are gentlemen of experience, and, withal, courteous. She leaves promptly as above announced.

The Glendale, Capt. J. H. Hare, with James Mellon, in the office, is filling up steadily for St. Louis, and will be probably ready to leave to-day.

The Staunch and reliable Columbia, Captain Geo. W. Reed, with Mr. James Russell in the office, is the regular Saturday packet for Cincinnati and Louisville, and passengers and shippers should bear this fact in mind.

The Camelia, Capt. Lytle, is filling up steadily for Nashville and all intermediate points.

The Kate Robinson left Cincinnati for Pittsburgh on Wednesday. The Bellevernon, en route from St. Louis to Pittsburgh, passed Evansville on Wednesday. The Cincinnati *Commercial*, of Thursday, says:

Tow boats were arriving freely yesterday, with a large tow of coal for this market. A number passed on down below. ....The People's Line wharfboat, recently purchased by the Cincinnati and Louisville Mail Company, at Louisville, arrived here last night in tow of towboat. It will be used here by the Mail Line. ....The new Louisville Mail Line steamer, America, was launched from Morton & Startman's yard yesterday, and dropped down to the foot of Ludlow street, for completion.

DULL TIMES.—Yesterday was the dryest day to be a damp one, we have experienced for many a day. The wharf was lined with boats with their "shingles" up for various ports; but a glance "along the line" would almost satisfy one that it was Sunday, and the crews had gone to bed to kill time. Some week or two ago, boatmen were growling about the river being low—but if it was up business would begin to get brisk—trade would open, and they would have plenty to do. Now the river is up, and there is no more signs of a revival in business now than they had a right to expect then. We cannot account for it in any other way than there is no business to do. The South has been overstocked with more than they wanted, in the way of provisions &c., and those who do want merchandise have not got the money to pay for it, and our merchants don't feel inclined to do a credit business. Yet our merchants have already credited more people in the South, since the war, for dry goods, groceries &c., than any other city in the west. Railroads, too, have helped to put a drawback on steamboating. All the steamboats coming up are bringing good trips, principally cotton, and but very few going down carry enough freight and people to pay expenses.—*Louisville Democrat, 21st.*

The St. Louis *Republican*, of Tuesday, contains the following complimentary notice of Capt. Donaldson's new steamer:

The Great Republic, Capt. W. B. Donaldson's new mammoth steamer for the St. Louis and New Orleans trade, is progressing rapidly towards completion at Pittsburgh. Those who have seen the hull represent it as a perfect beauty, the model is faultless and it is predicted that she will come to this city from New Orleans faster than any steamboat that ever turned a wheel. The cabin is designed to be the finest ever built. Neither time nor expense will be spared to make it complete in every respect. The furniture, upholstery and tableware are being manufactured expressly for this boat. Capt. Donaldson expects to have the Great Republic ready for business about the middle of January.

FINANCE AND TRADE.

FRIDAY, November 23, 1866.

The New York stock quotations to-day, as reported by Robinson, McClean & Co., were as follows: Gold, 138¾; 1881's, 112½; 5-20's old, 108; do '65, 105½; 5-20s, new 107½; 7-30s, first series, 105; second series, 104. Michigan Southern R. R., 77⅝; Cleveland & Pittsburgh, 80¼; Pittsburgh, Fort Wayne & Chicago, 101¼; Erie R. R., 69½; Union Telegraph Company, 45; Chicago & North Western, 38; Chicago & Rock Island, 100.

—The United States Treasury now holds $31,500,000 in gold, of which sum $21,500,000 are held in gold certificates. At the port of New York there has been a steady gain in specie since the close of June, each succeeding month having shown a balance in favor of the receipts. The loss from January 1, which was nearly thirty millions at the date of the change, is now reduced to eleven millions, and will be nearly wiped out by the close of the year, unless the shipments shall again increase. This is a far better result than could have been anticipated, and is one of the best features of the financial prospect.

—The suspension of the firm of Stuckle, Becker & Co. is announced in New York. The house is reported to have been largely "long" in gold and fancy stocks.

—The demand for currency continues, and among the buyers the Treasury Department is not the least. The national banks have been closely drawn upon to strengthen the Department at points where past due temporary loans remain unpaid. This resource is not equal to the demands upon the Treasury, and gold has been sold to a moderate extent "to buy currency" and pay the past due debt. It is evident that the Treasury has reached the point where it cannot come to the rescue of any class of borrowers. It is in a position to meet all the obligations promptly and to steadily reduce the volume of the national debt, but that is all. It has ceased to manufacture for itself or for the national banks anything in the form of currency, and is now laboring in a direction which converts legal-tender and short debt calling for legal-tender at maturity, into long funded debt, which employs money. From this time the Treasury will press with a heavy hand upon all forms of industry, in the shape of taxes, or forced loans, as they may with great propriety be called. These forced loans, to be sure, go to reduce the national debt, and to pay the interest upon it, but they are a burden upon industry, and no matter how necessary to maintain the honor of the nation, are no less a burden. As these taxes are paid in legal-tenders, which can and will be destroyed steadily, the market price of all the property of tax-payers will soon convince them that neither public or private debts are a blessing. The sooner traders upon borrowing capital realize that the Treasury is steadily reducing the legal-tenders upon which commodities now rest so insecurely, and shape their business accordingly, the safer they will be. The best purchase at the present time is money.—*N. Y. Tribune.*

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, }
FRIDAY, Nov. 23, 1866. }

There is really but little that is new to say in regard to the produce markets. The operations in all of the leading commodities are very much restricted, the demand being confined almost wholly to supplying the immediate wants of retailers and consumers, and consequently, we have but few round lot operations to report. So far, however, as values are concerned, there are no changes worthy of special notice.

GRAIN—Wheat is quiet and unchanged; sale of 1 car No. 1 Spring at $2,50. Oats in good supply but steady, with sales at 50 to 51, on track, and 53 to 55, in store. Sale of 1 car prime Spring Barley at $1,10, and 1 do choice, at $1,15. Rye may be quoted at $1,25 to $1,30. New Corn is offering at 55 to 60—holders generally, asking the outside figure.

FLOUR—Continues a little dull and weak, though prices are not quotably lower. We continue to quote good standard brands of Spring Wheat at $12½ to $12½, and Winter Wheat at $13½ to $14. Rye Flour is selling at $8¼ to $8½ per bbl, and Buckwheat at $4 to $4½ per cwt.

MILL FEED—Sale of 1 car prime white Middlings at $3. The stock of Bran, Shorts and Seconds is light, and the demand limited.

APPLES—Continue dull, and there is no falling off in the arrivals. We continue to quote in a regular way from store at $2 to $3 per bbl, as to quality.

POTATOES—Prime Peach Blows are selling at 75 to 80c per bush, and $2,75 per bbl. Sweets remain about as last quoted.

BUTTER—Is quiet with a supply considerably in excess of the demand but unchanged. Prime Roll is selling in a regular way at 30 to 33.

EGGS—Coming in more freely, but the demand is fair and market steady at 37 to 38.

DRIED FRUIT—We can report regular sales of Peaches at 18 for quarters; 20 for "mixed;" and 22 to 23 for prime halves. Apples dull and nominal.

SALT—Sale of 100 bbls on wharf, to the trade, at $2,60; and small sales at the usual advance.

SEEDS—Flaxseed is wanted at $3 to $3,10, and but little offering. Timothy and Clover quiet and unchanged.

SORGHUM—Is coming in pretty freely and the market is dull with a drooping tendency. Prime to choice may be quoted at 65 to 85.

CHEESE—Is dull; we quote at 16 for Western Reserve; 17 to 18 for Hamburg; 18 to 19 for Factory, and 19 to 20 for Goshen.

PITTSBURGH IRON AND BLOOM MARKET—WEEKLY REVIEW.

OFFICE OF THE PITTSBURGH GAZETTE, }
FRIDAY, Nov. 23, 1866. }

The transactions in metal were comparatively light this week, and while the market is regarded as being a shade weaker and the demand less active, stocks are very light and prices are still maintained. Our mill men feel somewhat discouraged in consequence of the high price of metal, together with a "strike" in view on the part of their puddlers for increased wages, while at the same time they cannot advance manufactured iron and compete with foreign makes, and they cannot well, at this season of the year, suspend operations. This state of affairs will, as a matter of course, have a tendency to restrict to some extent the demand for metal, though, as we have already stated, stocks of all kinds are very light, and desirable western brands sell readily at extreme prices. Blooms rather dull, which is usually the case at this season of the year. The following transactions were reported for the week:

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, }
FRIDAY, November 23, 1866. }

CRUDE—There was a moderate demand for Crude to-day, and while there was apparently a little better feeling, prices have undergone no perceptible change. We continue to quote at 10 to 10½, in bulk and barrels returned, and 15 to 15½, bbls included. Sale of 1000 and 1400 bbls, in bulk, at 10; 1900 on private terms, 55 at 15½, packages included; 2000 bbls (Western Virginia oil) to arrive, at 10½; and 2000—on Thursday—(good gravity) at 15½, free on board cars. It appears that we made a slight error in reporting a sale of 3000 bbls yesterday at 9. We noted that money had been advanced by the purchaser, which is denied. With this exception, the sale as we reported was correct. At Oil City, crude is quoted at $3,25 to $3,30 per barrel.

REFINED—There was more inquiry for bonded oil to-day, but the market is quiet, and prices remain unchanged—sale of one thousand barrels for January delivery in Philadelphia, at 34½. For immediate delivery, we quote nominally in the absence of sales at 33, and 33½ to 34 for December. Some parties were disposed to believe that the market was a shade better to-day, but generally, this was not so regarded by the great majority of those in the trade. Free Oil is dull, the demand being altogether local, while prices are nominally unchanged.

ARRIVALS—The following arrivals were reported to-day:

Baxter & Ellison	600	Lockart & Frew	2200
J. T. Stockdale	1300	Little & Williams	760
Jas. Wilkins	2152	Fisher & Bro	600
W. Haldeman	7000	R. D. Cochran	21
Total			14,533

Cleveland Market.

CLEVELAND, November 23.—Wheat—Dull and inactive and market unsettled. Demand principally for car lots for inferior milling grade. The irregular and unsettled state of the market, induced by a continued decline in the principal markets both east and west precludes the possibility of giving correct figures. Corn dull and nominal at 95c for old No. 1 shelled; 93c for No. 2 in car lots. There is no demand for new, either shelled or in ear, and sales are effected with the utmost difficulty, even a comparatively low figures. Oats—Dull and steady, but in light demand. No. 1 state held at 45c from store. Rye—Dull and nominal. Held at $1,20 for State; $1,25 for western. Barley—Quiet and unchanged. Held at $1,05 to $1,10 for good Canada; 85@95c for State.

Chicago Market.

CHICAGO, Nov. 23.—Flour dull. Wheat dull, at $2 08@2,31. Corn opened strong, and advanced 3@4c, and closed quiet at 88@88½c for No. 1, and 86@87c for No. 2. Oats opened firm, and closed quiet, at 3sc for No. 2. Provisions dull; mess pork 50c@$1 lower; sales at $20. Hogs moderately active and advanced 25@30c; sales at $6,25@7,12½ for fair to choice. Freights neglected and nominal.

LATEST.

The Money market is working easier and the stringency will probably soon be entirely over. Money is already coming here from the interior and the flow of capital this way is likely to be heavy before long. The Government is taking the compound notes from the banks at par, and the accrued interest for all indebtedness, which will help to ease the money market. The transfer of currency from the National banks to the Sub-Treasury here is nearly over and everything indicates a general easing up in future. There is a returning feeling of confidence and a growing belief that we have seen the end of the panic for the present. The demand for money was less active to-day than yesterday, and there was plenty of capital at 7 per cent. in good stock collaterals, and 6 per cent. on Governments; prime paper and acceptances pass slowly as yet, even at 7@8 per cent., and second rate bills are only done at large shaves.

There was a more active business in Foreign Exchange to-day, with an advance in rates. Prime bankers' bills are now quoted at 109¾@109⅞ for sixty days, and 110@110¼ for short sight. Gold—the market advanced to 139½ this afternoon, but fell off to 138¾. Cash gold at one time during the day was worth 1-64 per cent, but most of the loans were made flat. Steamship shares were decidedly higher towards the close of the day, and were in demand. Pacific Mail sold at 175 and Atlantic Mail at 106.

There was a better demand for the Government securities this afternoon, and there was a general advance in prices, especially in gold bonds. The following were the closing prices: 5-20 coupons of '64, 106½@106¾; do '65, 106⅝@106⅞; 10-40 registered, 99@99½; do coupons, 99½@100; August 7-30s, 105⅜@105½; June do, 104⅝@104¾; July do, 104⅝@104¾. The Railway market, after the second Board, lost a portion of the sharp rise on call, but there was a steady feeling at the last open Board, with improvements in some cases after call. Erie was weaker, but the rest of the market was generally steady. The following are the closing prices at 4:30 P. M.: Ohio Certificates, 28@28¼; Canton, 44½; Cumberland, 65½; New York Central, 108½@109; Erie, 70½; Reading, 112⅛@112⅜; Michigan Southern, 79¾@80; Illinois Central, 117½@118.

New York Produce Market.

NEW YORK, November 23.—Cotton—Holders are firm but buyers are few, at 33½c for middling uplands, and 35@35½c for do Orleans. Flour dull and 15@25c lower; $9,90@10,65 for sound common extra State, $10,60@11,50 for common to good shipping brands extra round hoop Ohio, and $11,55@13,50 for trade brands, the market closing quiet and rather more steady. Whisky quiet and nominal. Wheat opened dull and 2@3c lower, but closed rather more steady; $2@2,15 for No. 3 Milwaukee; $2,60 for prime No. 1 do, and $2,64 for white Canada. Rye quiet and heavy; State, $1,28. Barley heavy and 1@2c lower; 98c for Canada West in bond, and $1,06 for No. 2 rowed State. Barley malt dull. Corn opened heavy and a shade easier, but closed firmer, with some export enquiry, at $1,22@1,24 for shipping mixed western in store, $1,23½@1,25½ for do afloat, closing at the outside quotation; $1,26 for white western, and $1,23 for new white southern. Oats heavy; 61@62c for Chicago and Milwaukee, and 63@67c for state. Petroleum easier; 22c for crude, and 34@35c for refined in bond. Sugar dull and nominal. Molasses dull. Pork heavy and lower; $21,50@21,75 for regular and cash new mess, closing at $21,50 cash, and $20@20,50 for prime; also 6,250 bbls new mess at $22,50, seller last half of December, and $22,50 seller for January. Beef heavy and lower at $12@18 for new plain mess, and $17@22 for new extra mess. Beef hams $28@34. Bacon dull. Cut meats heavy; 9@11c for shoulders, and 11@13c for hams. Dressed hogs firmer at 9¼@10c for western: country, 9½@10½c and heavy. Lard lower and heavy at 12@13½c. Butter heavy at 15@30c for Ohio, and 30@40c for State. Cheese dull at 8@16½c.

Albany Cattle Market.

ALBANY, November 23.—Another decline has occurred in prices of cattle. The market opened with a very light demand, and a decline of ¼@½c per pound. Indeed, several droves of good fat Illinois steers, which last week would have brought 8c, were sold for 7@7¼@7½c. Yesterday, the inquiry was somewhat on New York account, and, altogether, 2,000 or 3,000 head changed hands, but without any improvement in rates; the top price was a shade inside of 8¼c for a drove of choice fat Kentucky steers, averaging upwards of 1,500 pounds. From this figure sales ranged down as low as 4c for interior. The aggregate receipts for the week are 4,500 head, and on these the total loss cannot well be less than $50,000. Sheep are dull of sale at 5@6c. Receipts—2,500. Hogs are in somewhat better inquiry, and a lighter supply; prices 7@7¼c.

New York Dry Goods Market.

NEW YORK, Nov. 23.—The Dry Goods Market continues steady notwithstanding the panic in Wall street, and the decline in cotton. There is, however, as would be expected, less confidence in the continuation of the present steadiness of the market, and any hour may see further concessions in prices and a falling off in the demand for goods. Jobbers prices are: Brown Sheetings—Appleton, A, 20½; Pepperill, E, 23½; do, R, 21½. Bleached Shirtings—Wamsutta, 37½; Androscoggin, 29; Ballou, 25. Prints—Cocheco, 20; Pacific, 19½; Allen 17; Empire, 12. Ticks—Hamilton, 37½; do, D, 32½; Blackstone, 25. Stripes—Haymaker, 28; Harvester, 27; Pittsfield, 14½.

Baltimore Market.

BALTIMORE, Nov. 23.—Flour very dull and the transactions for the week very light. Northwestern has been almost unsaleable, but extras, which compose the bulk of the stock here, offered freely at $12,00 for Howard; State superfine nominal at $11,25@11,75; Baltimore family—light grades—nominal, at $16.25. Wheat dull; fair to good white, $3,10@3,20; red prime, $3,10@3,20. Corn dull; new white prime, $1,05@1,15; old yellow, $1,13@1,18. Oats closed dull, closing at 55@58c. Provisions very dull and tending downward. Pork dull at $24@25 for new western; old, $27@27.50. Lard heavy and nominal.

St. Louis Market.

ST. LOUIS, Nov. 23.—Cotton dull at 30c for Middling. Flour unsettled, without material change. Wheat drooping; prime fall, $2,50@2,55; choice, $2,65. Corn lower, closing at 98c@$1,00 for choice Old Yellow and White, and 46c for New. Oats dull and lower, at 50@54c. Provisions strong, with a downward tendency; Mess Pork, $23,75; Clear Sides, 15½c. Sugar-cured Hams, $22,00. Whisky heavy, at $2,32.

New Orleans Market.

NEW ORLEANS, Nov. 23.—Cotton unchanged; sales of 2,500 bales. Receipts for the week of 27,700 bales, against 25,600 last week. Exports for the week, 10,700 bales; stock 166,000. Sugar dull and 4c lower at 10c. Molasses dull. Inferior lower, at 40c; prime higher, at 65c. New York exchange ¼c discount. Bank sterling 51. Freights unchanged.

Buffalo Market.

GREENBACKS

ARE GOOD.

BUT

ROBACK'S BITTERS

ARE BETTER,

Roback's Stomach Bitters,

After years of experience and trial, have proven to be the best remedy extant for all complaints where a tonic and stimulant are required. They never fail to strengthen the weak, impart vigor to the strong, and in all respects restore shattered and broken down constitutions. No remedy has been received with as much favor as ROBACK'S STOMACH BITTERS.

ARE GOOD,

It is admitted by our most learned physicians that DR. ROBACK'S BITTERS combine the properties of a gentle laxative, an efficient anti-billious agent and the best stomachic known to the world.

ROBACK'S

BITTERS should be used by convalescents to strengthen the prostration which always follows acute diseases.

In the billious districts of the West and South, there has for a long time, been much needed, an article of Stomach Bitters, which, if taken in proper quantities and at the proper time, are a sure preventative of

Billious Fever, Fever and Ague, Liver Complaint, Dyspepsia, Indigestion, Jaundice, Kidney Complaints, and all Diseases of a similar nature, and

Are Better

Now that the war is over, there will be thousands seeking homes in the South. No person who values his life should go there without having constantly on hand the BITTERS, as a safeguard against epidemics and maladies engendered by miasma and polluted water.

Travelers and all residents of the rank river bottoms of the west and the valley of the Mississippi and its tributaries, should provide themselves with the

NOTICE TO CONSUMERS OF WATER.—The repairs now in progress at the Water Works render it imperative that great economy should be observed in the use of water, the one engine now running being taxed to its utmost capacity. All unnecessary waste of water should be avoided, such as sprinkling streets, washing pavements, drenching clothes in tubs to an inordinate extent, &c. Unless there is proper attention paid to these requirements the city will not have sufficient water for fire, culinary and other necessary purposes. A non-observance of this caution may deprive the offender of a supply of water, as well as entail a heavy fine.
It is hoped that in the course of three weeks or a month, at farthest, the Superintendent will be enabled to remove these restrictions.

TO YEARLY ADVERTISERS.

Owing to the large amount of advertising patronage with which we are favored, and for which we are duly thankful, and the increase of our circulation, altogether beyond our present means to supply as promptly as we ought, we find it generally inconvenient, and sometimes quite impossible, to insert changes for yearly advertisers, unless left at our counting-room before seven o'clock in the evening.

PLAIN WORDS WELL MEANT.

For a quarter of a century, the Whigs or Republicans of Allegheny county have been much on Election Days, and little in State Conventions and Legislative Caucuses. Their grand majorities, turning the doubtful scale the right way, in many contests, have always sent a thrill of delight along the entire line, but when victories have been won, and honors are to be assigned, Allegheny county has constantly been constrained to submit to disparagement. Other localities, every way inferior as to services, and offering men of less intellectual powers and general usefulness, bear away the coveted palms. Way is this? Simply because the leading men of this county have the bad habit of destroying each other, and are never in those larger combinations, extending throughout the Commonwealth, which are destined to succeed. Divided by petty rivalries, separated by conflicting ambitions, they do sometimes award each other, with a sort of dolorous gravity, complimentary votes; but the inevitable result is failure. Hence, Allegheny, which ought to be a power in the Republican councils of Pennsylvania, is altogether impotent. What is worse, her political leaders, while discontent with this humiliating condition, seem disinclined to make any serious efforts to grasp and retain the influence to which she is justly entitled. Complaining about disparagements are idle. Few people are so disinterested as to laboriously build up those who are intent on pulling themselves down. If our leaders were less resolved to punish those who for any cause are obnoxious to them, and more inclined to work in harmony towards common ends, Allegheny would be respected, because she would be feared. Her divisions and distractions only sink her into contempt.

THE INFLUENCE OF LOCALITY.

Before BUCKLE gave to mankind those splendid generalizations which made his name famous, all acute observers had made the discovery that the local surrounding circumstances under which men were born and reared produced a profound impression on their opinions and sentiments, and consequently upon their destiny. One of the finest arrangements of human society is that which relates every man in a peculiar and express manner to some particular district of the earth. For a man in early life to be shifted about, from spot to spot; perhaps for a man to be removed at all in early life from the spot to which birth and the ties of family have attached him, may be regarded as a misfortune. Every man ought to be related more especially to one district which he can regard as his own, to which he can attach himself sentimentally, and with the whole aspect and circumstances of which he can, without unnecessary labor, make himself familiarly acquainted. It ought to be a principle with all interested in education, that every boy ought to have as a part of his intellectual outfit, a tolerably complete acquaintance with the natural phenomena, the social processes and on-goings, and the legendary lore of his own district. Healthy boys do attain a good deal of this for themselves, and this is the meaning of that perpetual locomotion and inquisitiveness of boys whether in town or country. In point of fact there have been few eminent men, not of the purely speculative order of intellect, to whose genius the local circumstances around which they have passed their lives will not be found to have imparted a characteristic quality and color. Whatever else a man may learn, he does not forget the impression which the surrounding local circumstances of early life made upon him. They are inwrought into his very nature. He may go elsewhere; look upon new scenes; participate in stirring events; form different associations; acquire new habits; but he cannot shake off from himself the effects of that early schooling.

But it is not alone the aspect of earth and sky, the ever varying face of nature, that this acts as an educational force. In early life especially close friendships are formed between man and man. Friendship is a wonderful instructor. In all communities there are persons who act upon those about them with a sort of magnetic influence. These are persons of strongly marked individuality; and they attract others, impressing less or more of their peculiarities upon them. Few of us are fully aware how much of our own development we owe to this source. We understand tolerably well what it is for a born leader to sway the masses of a great nation, or of many nations, as did LUTHER or NAPOLEON; we have accustomed ourselves to the contemplation of that marvel; but the leaders on an unpretending scale we have not so distinctly thought upon. We yield ourselves up to them; are biassed by them, this way and that, and for life; and yet scarcely perceive that any influence has been exerted upon us, so stealthy and mystical is the operation.

IT SEEMS to be the chief function of most Washington specials to contrive how many false reports they can manufacture during a given time, and upon how unsubstantial a basis. They have recently displayed unwonted activity and ingenuity in trying to humbug the public concerning the President's purposes, as modified by the elections, recently held.

The latest of these inventions describes the President as resolved to cease opposition to Congress. Now, it does not matter much, except on his own account, what the President intends or does. The people have taken care of themselves and of their government. But, pray, of what avail is it to parade statements of the President's docility, while he is all the while turning republicans out of office and putting the worst sort of copperheads in? Does he imagine these appointees of his will be allowed to stand? One of the first duties of Congress will be to send them all adrift, and to provide that such as they do not crawl back into snug places again under the government they have done so much to destroy.

MR. DENNISON, of Ohio, wants Congress to deal with President JOHNSON in a moderate and dignified manner, and not to think of impeaching him. As MR. DENNISON was a sharer for a long time in all the evil deeds of the President, it is not marvellous he inculcates lenity as the highest wisdom.

ON the authority of a Philadelphia contemporary, we stated a few days ago, that Gov. Geary had appointed Mr. Brewster Attorney General. We now know such not to be the fact, and that the appointment will not be determined till the first of next month.

ADJUSTMENT OF TAXATION.

Mr. DAVID A. WELLS is the Commissioner appointed to examine and report what changes are desirable in the internal and external revenue systems of the United States. His task is one of great delicacy and practical importance. The champions of foreign interests have presented their views in the strongest lights of which they are susceptible, and no doubt the supporters of domestic industry have done the same service for their views. There are sinister rumors that the Commissioner inclines to the Free Trade side. This we do not believe. It is probable, however, that in adjusting the two systems of revenue to each other he may not accept the ideas of men who are personally concerned in particular branches of manufactures or traffic. But we do not doubt he will give all aspects of the matter full and fair consideration, and will honestly aim at relieving the burdens of taxation while recommending the best that in his judgment can be done for our producing interests.

CONGRESS will assemble this day week. A cordial reception will be given the loyal body by the citizens of Washington. The President is busy preparing his message, which promises to be an important document. It has received, that is so much as is completed, the approval of the Cabinet. He will endorse a plan submitted by the Secretary of the Treasury for a return to specie payments. It is said that he is in favor of universal suffrage but is opposed to any National legislation upon the subject.

Of the Senate a President *pro tem* must be chosen. As that officer becomes the acting Vice President of the United States considerable importance is attached to the forthcoming election. It is not improbable that the choice will fall upon Ben. Wade, of Ohio, but he is bitterly opposed by Mr. Chase, since the old feud existing between these two gentlemen has not died out with time.

It is said that a bill has been prepared to introduce the first week of the session, repealing the act of July, 1862, which it passed, will prevent the President from pardoning rebels till after they have been tried and convicted.

THERE seems to be a settled purpose on the part of the administration to get this country embroiled with both France and England, and for the express purpose of giving the late rebels a chance to make their own terms of reconstruction, or to renew the struggle with fresh hopes.

A WASHINGTON telegram to the New York *World* says that Gen. Cameron is here on railroad business, and that Mr. Stevens will get the Senatorship.

UNION PACIFIC RAILWAY—EASTERN DIVISION.

Correspondence of the Pittsburgh Gazette.

ST. LOUIS, Nov. 17, 1866.

DEAR GAZETTE:—Our friends returned from the Buffalo region last evening safe and sound. They went far beyond Fort Ellsworth, and not less than one hundred and fifty miles beyond Fort Riley. They succeeded in slaughtering one buffalo after a lively pursuit of a herd of twelve for several miles. So tenacious are these animals of life, that this one was found to have received some twenty balls before its headlong progress was arrested. It proved to be a very good one, and our gallant friends had a feast of some of the choicest parts on the spot. The best of the remainder they carried back to their hospitable friends, the officers at Fort Ellsworth.

The account they give of the valley of the Smoky Hill corresponds with that of all others with whom I have conversed—fertile soil, luxuriant grass, plenty of water, but little timber, abundance of the best of building stone, vast prairies, some undulating and some level. There are no settlements west of Fort Ellsworth, and they saw but few Indians.

They travelled very nearly on the line of this railway, and found the country well adapted to such a work. Where the road rises from the valley of the river to the "divide," and then back again, there will be some cutting and filling required, but not to any serious amount. In no place will the grade exceed sixty or seventy feet to the mile, and that only for short distances.

On Monday our party, accompanied by a party of friends from this city, are to make an excursion to Iron Mountain and Pilot Knob, and on Tuesday morning early we start for home in our own excursion car, *via* Terre Haute, Indianapolis, Columbus, Steubenville, and thence by the "Pan Handle" to Pittsburgh, where your humble servant hopes to be dropped out of the party at home—"sweet home"—after an absence of over three weeks, and after about as interesting and pleasant an excursion as could be imagined.

We have had glorious weather all the time. I think the weather out here is more pleasant in the late autumn than it is in the Eastern States. While at Fort Riley it was bright and warm as summer. The only complaints I heard were of the heat. I expressed apprehension, while there last, that the fine weather was nearly over; but they told me that such weather as we then had was usual at that season, and that it would probably continue for some weeks longer. In fact the contractors on this road expect to go on with very little interruption all winter, and have it completed and open for business to Fort Ellsworth, 85 miles west of Fort Riley, and 221 miles west of the Missouri river at Kansas City, by the first of May. Cattle in the valley of the Smoky Hill Fork thrive and keep fat all winter on the rich natural grasses, which preserve their nutricious properties the whole year round.

THE FINISHED PORTION OF THE ROAD.

I have not yet said anything particularly about this, but shall do so now.

From Wyandotte to Junction city, three miles west of Fort Riley, the ground is all a rich sandy loam, becoming a little more sandy as we go up the valley. For the first thirty miles it passes through a heavily timbered region; the remainder is uninterrupted prairie. In no place does the road rise above the bluffs; and yet in but few places does it approach near to the margin of the river. The river is somewhat serpentine; but as the bottom land is miles in width, the road is nearly straight and nearly level.

The black sandy soil makes an excellent road bed. When thrown up it becomes very compact, and sheds water well; and what water does penetrate passes through without softening the rounded roadbed. No balasting has yet been done; and some contend that none is needed; but I am not of that opinion. The enormously heavy trade that will crowd upon this road will be too much for this solid sandy bed, however compact it is at present. But there is no difficulty in this, as in the bluffs which bound this valley from the Missouri river to the extreme western limit of the Smoky Hill Valley, the very best of stone for this purpose can be obtained in any quantity, and at little expense. But the road, as now built on its bed of sandy loam, is very good, and a train runs over it rapidly, smoothly and pleasantly. The ties—which are principally of white and bur oak (equally good) with some of black walnut and elm—are of good size, and are laid at two feet from centre to centre. In short, this road is in all respects better and more substantially constructed than I expected to find it.

At present three trains run daily each way, between Wyandotte and Junction City, two of which carry passengers. These trains are taxed to their utmost capacity, the receipts amounting to sixty thousand dollars a month.

VALLEY OF THE SMOKY HILL.

The impression has long and generally prevailed, that between the rich prairie region of Kansas and the base of the Rocky Mountains an extensive desert exists—that a belt of some two hundred miles of land, too sterile for settlement, lies between the Missouri and the mountains. But it is not so. From the settled portion of Kansas to the base of the mountains the soil is uniformly rich, producing an abundant growth of nutricious grasses, on which vast herds of buffalo live and thrive, and on which domestic cattle and sheep in great numbers are beginning to be introduced. But it is true that timber is scarce, and that there are fewer springs and water courses than are found in the more eastern portions of the continent. Water in abundance, however, can be obtained at the depth of from twenty to thirty feet; and as the settlement of the country advances, timber and fruit trees will soon cover the country as they are beginning to do on the vast prairies of Illinois. Protected from prairie fires and from animals, many kinds of valuable trees thrive and grow admirably on these fertile plains; and as trees increase so will the humidity of the atmosphere, so that in time the want of sufficient water will be no longer felt.

In the eastern portion of our country the land had to be *cleared* of its timber to fit it for cultivation; but in the west the land is already clear; so that, instead of destroying timber, the farmer finds the more grateful task of creating it by planting. The first had to be done, at immense labor, before the farmer could raise his own bread; the other can be done from year to year as opportunity and leisure offer, while his splendid prairie fields are richly clad in his growing crops. A whole people form habits slowly; but the change from destroying trees to planting and rearing them will as surely come, as that the returning sun will bring spring and summer.

I am told that the locust succeeds well and grows rapidly on all these prairies; and that the cedar thrives if it can only be started; and I know that the elm and black walnut grow magnificently out as far as Fort Riley, for I saw them.

It is said that there is not a chestnut tree to be found growing naturally west of the Mississippi; but I am of the opinion, from my knowledge of that tree, that it would grow most luxuriantly on the rolling prairies of Kansas.

The sooner this work of timber-rearing shall be commenced and prosecuted on a large scale by settlers, non-resident proprietors, and railroad companies, the better for themselves and the better for the country. In the vicinity of this city, where, thirty years ago, stretched an extensive prairie, the whole landscape is beautified by as fine fruit and ornamental trees as I ever saw; and what it is now, Kansas will be in another generation. C.

GENERAL NEWS.

—A St. Louis dispatch to the Cincinnati *Gazette* gives the following account of an adroit trick of a man who was pretending to examine goods in a jeweler's store with a view of buying. While examining some fine diamonds, the clerk being for a moment called away to attend a lady, he succeeded in securing some $10,000 worth. On the return of the clerk he asked to be shown to a private room for a few moments, and to allay suspicion left his hat on the counter. Passing out to the rear of the store he tore the grating from the window leading into the cellar of the drug store of Alex. Leitch, where he took a hat belonging to the porter, and coolly walked up stairs and through the store into the street, where all trace of him was lost.

—A writer in the November number of *De Bow's Review*, in an article styled "The Age of Reason and Radicalism," charges that "the banner of faith went down when the South was conquered, and we expect, ere long, we shall have a reign of terror and a goddess of reason throughout Christendom." His argument is that freedom and infidelity on the one hand, and Christianity and slavery on the other are synonymous terms!

—A Peter Ricci was arrested in Cincinnati, a few days ago, on suspicion of having swindled a man by borrowing $35 of him, and giving him as security a brass watch, pretending that it was gold. When Mr. Ricci was brought up for examination, he proved to be a respectable New York merchant, who had large business connections in Cincinnati. The sharp policemen were mistaken in their man that time.

—The value of the bonds of the Irish Republic is about to be tested in the courts. The amount of these bonds disposed of in Boston alone amounted to at least $100,000. Parties are said to be engaged in collecting them for the purpose of holding the parties issuing them for the amounts. An incidental purpose is to find out what has been done with the money that was paid for them.

—Last week a company was organized in Boyle county, Kentucky, to rid that section of the bands of thieves that had so long operated in that portion of the State. On Friday night they captured two, whom they hung. Afterward they proceeded to Cornishville, Mercer county, and having captured one of the desperadoes, hung him.

—In 1766 the postage on letters between Falmouth—now Portland—Me., and Boston, was two pounds sixteen shillings. We are surprised to learn that at this high rate even as many as five letters a week were sent, which was about the average. It then took four days to go from one place to the other, a distance of 125 miles.

—Miss Eliza Pursell of St. Louis has commenced a suit at the Circuit Court against B. B Haagsma, the Consul of the Netherlands, for $10,000 damages for lacerated affections and breach of marriage promise. As the trial progresses, we presume the whole current of vexed love will be laid bare by keen lawyers.

TEN REASONS WHY HOSTETTER'S STOMACH BITTERS should have a place in every home:

BECAUSE by invigorating the constitution and the frame they *avert sickness*.

BECAUSE (especially) their use prevents the atmospheric poison which produces *epidemics* from taking effect upon the system.

BECAUSE they cure *Indigestion*, and impart unwonted vigor to the *stomach*.

BECAUSE they are the best *appetizing medicine* at present known.

BECAUSE they are the only preparation upon which persons of a *bilious habit* can safely rely to *keep the liver in good order*.

BECAUSE they tone and *regulate* the bowels, and invariably relieve them when constipated without causing undue relaxation.

BECAUSE they *strengthen the nerves*, clear the brain, and cheer the animal spirits.

BECAUSE in case of an attack of spasms or bilious colic they are the best thing that can be administered on the instant.

BECAUSE they combine the three properties of a tonic, an alterative and a nervine in their utmost purity and perfection.

BECAUSE they are a specific against Ague and Fever and all the intermittents, and with all their potency as a preservative and a remedy, are as *harmless as water from the mountain spring*.

(ADDITIONAL LOCAL NEWS ON FIRST PAGE.)

Our Young Men.

What shall be done for our young men? Hundreds of them assemble every night in the Theatres, Varieties, billiard and drinking saloons. Young men do not assemble there from an inherent love for such scenes and associations. A large proportion go to these places in the first instance because they have nowhere else to go. This the proprietors of these institutions know full well, and act accordingly by making them as attractive as possible. These things ought not so to be. What counter attractions can be furnished? is a question which ought, for obvious reasons, to receive the anxious consideration of parents and employers. A recital of what is being done in Philadelphia and other cities in that direction may be of service.

The members of the Young Men's Christian Association, of Philadelphia, have taken the matter in hand. They have opened to the public, and to young men especially, a suite of rooms at No. 1210 Chestnut street. These rooms are kept open every day from 9 o'clock A. M. until 10 o'clock P. M. At present they are three in number. One, very large, handsomely furnished, well lighted and heated, is the reading room and library. Here are to be found all the leading papers, daily and weekly, and the periodicals and Reviews, both of our own country and England, to the number of a hundred and upwards. A second room, somewhat smaller than the first, is furnished as a parlor. A third, of the same size as the reading room, capable of seating three or four hundred, is used as a lecture room. In addition to these attractions they employ competent Professors of Latin, Greek, German, French, Elocution and Music, and have classes of young men in each of these branches. They give also courses of lecture, both literary and scientific, and musical entertainments. All these attractions are afforded *free of charge* to all the members of the Association. Any young man may become a member by the payment of a small annual fee. The fee in Philadelphia is one dollar a year. In New York it is two dollars, and they have similar attractions. The last report of the Association in Philadelphia stated the average number of young men in attendance at their rooms to be over three hundred daily. But these are not all the benefits furnished to young men. Strangers going to that city are sought out, furnished with employment and good boarding places, and brought under moral influences. So much has the work grown upon their hands that they are already negotiating for larger accommodations. This is an outline of the work being done in Philadelphia. A similar work, as was said above, is being done in New York. The same is true of Albany, Boston and Cincinnati. In the latter city there are coffee rooms open day and night where any one may procure coffee, at any hour, as a substitute for the stronger and more injurious beverages.

Something of this nature is what is needed here, and we are happy to state that a movement is already on foot to accomplish it. An association is being formed with a view to opening such a suite of rooms and furnishing some of the attractions above enumerated to our young men. There will be an adjourned meeting this (Monday) evening, in the Lecture Room of the First Presbyterian Church, on Wood street, to complete the organization, and all moral young men are invited to be present.

An Inhuman Son—A Father Cruelly Beaten by His Own Child.

Samuel Gracey resides with his father in the suburban village of East Liberty. Samuel's ancestors were wealthy, but unfortunately for Samuel's paternal relative, the glittering dross disappeared from his coffers ere Samuel reached man's estate, and in consequence Samuel was forced to seek the broad field of industry for the procuration of sustenance. This angered Samuel when he reflected on it, and caused him to breathe many and deep curses on the folks that took from his sire the wherewithal by which he might have led a life of extravagant indolence. On Friday evening last Samuel became slightly inebriated and began to brood over his poverty until he became so exasperated as to upbraid his father for having failed to husband his means and thereby have a sufficient dower to make his progeny wealthy. The old man endeavored to defend himself from the reproaches so unkindly given him, but this only added to the fury of the unhappy Samuel, who, forgetting his manhood and the filial duty he owed to the author of his being, struck his parent in the face with his boot and afterwards kicked and abused him. The cries of the old gentleman attracted some of the persons passing along the street, who ran to his assistance, and one of them, a youth named Charles Barney, rescued the parent by felling the son to the floor with a chair. The following day Samuel appeared before Alderman Lynch and lodged an information against Barney for assault and battery, while a few hours after a similar information was made against Samuel by his father before the same magistrate. Warrants were issued in both cases.

Charged With Theft.

Andrew Kelley came to the office of Alderman Lynch, on Saturday, and instituted proceedings against Samuel Jones for the larceny of a silver watch, valued at $25, from the trunk of the deponent in the boarding house of Mr. Robinson, on Penn street.

Kelly alleges that on Friday evening, after eating supper, he proceeded to his room and unlocked his trunk for the purpose of changing his costume, preparatory to attending the Coker concert, at the Academy of Music. Having occasion to go down stairs, he did so, neglecting to lock his trunk, and when he returned in a few minutes after he met Jones coming out of his room, and as he passed him he thought he observed him putting something into his pocket. Going instantly to his trunk he made the discovery that he had been robbed of the time keeper. He hastened immediately to the parlor where Jones was lounging and accused him of the theft, when the latter grew very angry and threatened to cut Kelly's heart out if he even dared to repeat the assertion.

Feeling confident his property had been taken by Jones, Kelley repaired to the magistrate's office and made the charge as stated. Jones has been arrested and held in $500 bail for a hearing to-day.

The Romance of a Poor Young Man.

A young man now engaged in teaching near Wheeling, is reported to be the happy recipient of an estate valued at seventy-five thousand dollars. This freak of fortune is tinctured with the colors of romance. Belonging to one of the Pennsylvania regiments he was wounded at Gettysburg in the arm. Returning from the field, he became faint from the loss of blood and was very kindly cared for by a benevolent family living near by. During his confinement, a woman, whose heart is always alive to suffering humanity, tenderly watched over him. Her tender nursing kindled love's flame. The nurse and patient promised each other days of future bliss. The father of the family perceiving this state of affairs, and weakening under the infirmities of age, made his will prior to their marriage in which he bequeathed this clever estate to the soldier and his expectant bride. Unconscious of such paternal favor, the young soldier engaged in teaching, nobly striving to honestly earn his bread, and was thus laboring when his attorney notified him of his happy fortune.

Serious Accident.

The Newcastle *Courant* says: Mr. Wilkes Waddington, Superintendent of the Nut and Washer Works, was very seriously injured on Wednesday morning last, while engaged in examining some of the machinery. Something got wrong with a belt running from one line of shafting to another, by which a large plank to which the hangers were fastened was torn from its place, and came down with great force, striking Mr. Waddington's head and shoulder, and knocking him down upon a pile of coal near him. His head was terribly cut, his shoulder blade and one rib broken, and it is feared he is internally injured. Mr. Waddington is one of the most energetic business men in the place. His situation is critical, and his sufferings very intense.

Surety of the Peace.—Rebecca Forbes, a lady of color, was up before Alderman Humbert, on Saturday, charged with surety of the peace on oath of Jane Simmons, also a *feminine de Afrique*. The parties reside at the Point, where Jane alleges Rebecca said she "would see her heart" before sundown. Unwilling that such an exposition should take place, Mrs. Simons came at once to the Alderman and asked that the law should interfere and protect her from the dire and heartless vengeance of Rebecca. The latter beauty was made to give bail for a hearing at some future time not definitely settled on.

Death by Accident.—Mr. Wm. Young, of Pollock township, died on Thursday evening last from the effects of a fall at the lumber yard of Gorley & Crawford, in this place. The circumstances are as follows: On Wednesday he was engaged in piling lumber, and at one o'clock started to climb to the top of a pile about eighteen feet high. When near the top his hold slipped and he fell backward to the ground, striking on his head and shoulder. No person saw him fall, but he was discovered a few moments afterward and taken to the house of Mr. Gorley. He died on Thursday evening.

A Growing Place.—Weatherly, about fifteen miles above Mauch Chunk, on the line of the Beaver Meadow branch of the Lehigh Valley Railroad, and near the Quakake-branch junction, is getting to be a place of considerable importance. In addition to the extensive shops of the old Beaver Meadow Company, the Lehigh Valley Railroad Company are building an additional shop for various kinds of railroad machinery, which will give employment to many workmen. The building is 180 by 200 feet.

An Immense Tree.—Captain John Bryan, of St. Thomas township, Franklin county, recently cut a white oak tree on his farm which produced 2,995 feet of sawed lumber and 4½ cords of fire wood. It measured 4½ feet across the stump, and at a distance of 57 feet from the stump, the trunk still measured over two feet in diameter. The wood and lumber realized from this single tree, at their market price, ammounted to about ninety dollars.

Cholera Among the Oil.—The cholera has appeared in the oil regions of West Virginia, and at some places is raging with unusual fatality. At Eaton's Tunnel, a small station on the Baltimore and Ohio Railroad, fifteen miles from Parkersburg, there have been fifteen deaths in four days, in a population of not more than one hundred persons. The scourge is principally confined to the Irish workmen engaged on the railroad.

Death of a Burnt Child.—The little negro child named Hollinger, which was so severely burned on Wednesday morning, died at the residence of its parents on Thursday morning. The body and arms of the child were terribly charred and he writhed in agony until death relieved him.

Found Guilty.—Sergeant Charles Victor, who was indicted for killing Captain J. G. Sennott, of Black River, in December, 1864, at Cleveland, has been found guilty of manslaughter, and sentenced to the Penitentiary for one year.

EARLY TELEGRAMS.

MEXICAN MATTERS.

The French Troops in Mexico—Rumored Postponement of their Withdrawal—The Arrest of Ortega—The Cotton Frauds.

NEW YORK, November 24.—A *Herald* Washington special says: It is intimated in official circles that the French Government has declared its purpose not to abide by the arrangement concluded with Mr. Seward, to withdraw the French troops from Mexico this fall, and postpones the withdrawal till next spring. It is believed this was the subject before the Cabinet yesterday.

The arrest of Ortega turns out to have been a voluntary act on the part of Sheridan, but it has been approved by the Government. It appears Ortega is merely the instrument of only a small clique of French and British merchants who are anxious to secure the trade of Mexico and prevent its falling into American hands. The native population unanimously adhere to Juarez. The cotton frauds, as developed in the investigations by the Retrenchment Committee, are assuming prodigious proportions. The business of smuggling on the Canadian and Rio Grande borders, is rapidly declining, owing to the vigilance exercised by the Government officers.

By Foreign Mails—Speech of the Earl of Derby.

NEW YORK, Nov. 24.—The speech of the Earl of Derby at the Lord Mayor's banquet in London, and already referred to by telegraph, contained the following: With regard to that great country, our natural friend, our relation, I may call it that Great Republic across the Atlantic, the storm of war has indeed ceased there, but the surface, nay, I may say the interior of society, is still ruffled and agitated, yet I cannot but believe that that great and powerful nation, which has made such glorious efforts for the purpose of keeping down the burden of debt which the war has entailed on its national finances and which is making such superhuman efforts to recover its financial position, I cannot but believe that a country so deeply interested in the science of self-government well and speedily knows how to compose the agitation which at present prevails, and exhibit to the world at no distant period the gratifying prospect of a great, a proud and a prosperous community, and I may be also permitted to say that in the course of that dreadful war which has so long devastated that country, many questions may have arisen between that and our country which have produced the slightest amount of unpleasant feeling. I have a confident expectation that the two Governments, approaching these questions in a spirit of mutual forbearance and kind consideration will arrive at such a conclusion of these questions as not only to remove all remnants of bitterness, but place on a better foundation than ever, our relations with that great country to which we are bound by so many ties of interest and regard.

Chamber of Life Insurance.

NEW YORK, November 24.—The Chamber of Life Insurance, yesterday, resolved that the people ought to be protected as effectually as possible from all unsafe and fraudulent schemes of insurance, and to that end should seek an enactment by Congress applying annually a proper test of the sufficiency of the assets of each company.

The Pacific Railroad Excursionists.

CINCINNATI, Nov. 24.—The Central Pacific Railroad excursionists arrived here this morning, and will leave for the east on Monday. The Commerce, yesterday, appointed a committee to receive the excursionists, and show them various points of interest in the city.

The Hurricane at San Salvador.

NEW YORK, November 24.—The *Herald's* correspondent at San Salvador says: During the hurricane at the Island, the Baptist Chapel at Freetown was among the buildings destroyed there. The Legislature at Hashan voted fifteen thousand pounds to repair damages.

Revival of the Coolie Trade.

NEW YORK, November 24.—From Jamaica on the 16th inst., we learn that the Coolie trade has revived.

The Legislative Assembly was inaugurated on the 6th ult. Complaints were rife about high duties.

Bank Teller Acquitted.

NEW YORK, Nov. 24.—A *World's* Boston special says: Lucius H. Tenny, the first teller of the National Bank of Greenfield, and who was charged with having stolen a large amount of bonds from the Bank, has been acquitted.

JOHN D. BAILEY,

Stock and Real Estate Broker,

FOR SALE—400 Acres of Coal Land, lying immediately upon the Ohio River, 20 miles below Gallipolis, and 185 miles above Cincinnati. On the above tract is a four foot vein of Coal, which, for general purposes, is not surpassed. It is entirely different from the Southern Ohio Coal; contains but little sulphur, forges and cokes well, and for making steam cannot be excelled. The location being about midway from Pomeroy and Hanging Rock, must make it valuable for coaling boats. There is a water front of ¾ of a mile, with a good landing at all stages of the river. An entrance has been run in the hill about 300 feet, track finished to river, together with the necessary fixtures for mining and delivering coal afloat. On said tract is first-class double Portable Circular Saw Mill, together with a Portable Grist Mill, all in good running order, and plenty of the very best oak, ash and poplar timber. Would sell one-half interest if desired, to a party with experience and capital for working same.

Stock and Real Estate Broker,
oc19 No. 162 Fourth street.

FOR SALE—231 acres Coal, including 51 acres Surface, on the East side of the Ohio River, three miles above Wheeling with right of way to river. The close proximity to a good market at Wheeling, together with the fact that the coal crops out high enough in the hill to be used profitably for rolling mill purposes, makes this a good investment.

NOTICE TO CONSUMERS OF WATER.—The repairs now in progress at the Water Works render it imperative that great economy should be observed in the use of water, the one engine now running being taxed to its utmost capacity. All unnecessary waste of water should be avoided, such as sprinkling streets, washing pavements, drenching clothes in tubs, and an inordinate extent, &c. Unless there is proper attention paid to these requirements the city will not have sufficient water for fire, culinary and other necessary purposes. A non-observance of this caution may deprive the offender of a supply of water, as well as entail a heavy fine.

It is hoped that in the course of three weeks or a month, at furthest, the Superintendent will be enabled to remove these restrictions.

no13:n82 Superintendent of Water Works.

PURE CALIFORNIA WINES.

GURNER & CO.,

No. 80 Cedar St., New York,

Offer for sale these valuable Wines, which are gaining public favor with astonishing rapidity, and whose unprecedented and unrivalled popularity is not without merit. They have only to be fairly tested to give them the preference over all others. As a purifier of blood they excel all other Wines, and the numerous certificates which have necessarily been given by the most eminent physicians, as well as gentlemen in every position in life, are proof conclusive that these Wines are useful in all cases for which they are recommended.

The following brands are now offered by us. They comprise the varieties now grown in the State suitable for use:

WHITE, or HOCK WINE—Of a light straw color, very delicate and fine flavored.

CLARET—A superior wine for table use.

ANGELICA—A rich and naturally sweet wine, much admired by ladies, and valuable in the sick chamber, as it makes fine whips and jellies. It is a fine dessert wine, and well adapted for Communion purposes.

MUSCATEL—A light colored, highly aromatic wine. Very similar to the celebrated Tokay.

PORT—Of a fine flavor, and in many respects similar to the old wines of Lisbon.

GRAPE BRANDY—The pure distillation of our wines.

WINE BITTERS—A very agreeable tonic and a sure remedy for the diarrhea.

This is one of the most valuable combinations of a useful and an agreeable beverage that has ever been offered to the public. Millions of bottles were sold throughout the Union during the past year, and wherever introduced it has proved a welcome addition to the invalid table, the family circle, and the bachelor's sideboard.

Ladies who have lost strength and appetite, and suffer from nausea, vomiting and vertigo; gentlemen who "don't feel very well" just before breakfast or dinner, whose stomachs are out of order and whose systems are debilitated; mothers weaning children and suffering from general debility; children of sickly habits and weak, dyspeptic constitutions; travelers who have occasion to change their waters, or who live in malarious districts and are subject to inflammatory [illegible], will find it one of the most valuable invigorators that can be taken.

It was very extensively used in 1861, with such general satisfaction that we deem it unnecessary to publish any of the many certificates that we have received, testifying to the very great merits it has in its favor. All that we can say is, that those who wish to satisfy themselves to furnish an article PURE AND UNADULTERATED.

"It has been given to little children suffering from weakness and weak lungs with most happy effects. One little girl in particular, with pains in her head, loss of appetite, and daily wasting consumption, on whom all medical skill had been exhausted, has been entirely restored. She commenced by taking but a teaspoonful of Bitters a day. Her appetite and strength rapidly increased, and she is now well."

Evacuation Day in New York—Man Shot—The Cholera.

NEW YORK, Nov. 24.—All the arrangements for the military parade on Monday, evacuation day, in this city, have been completed. It is believed that not less than twenty-four regiments of the first division will be in the line, numbering about 10,000 men.

James Tierney shot Edward Barry to-day in a drinking saloon on the corner of 27th street and Sixth avenue, killing him. The murderer was arrested.

There were no new cases of cholera among the passengers of the ship Mercury to-day, and only one death.

Steamer Launched.

BOSTON, Nov. 24.—The Ontario, the pioneer of the proposed Boston and Liverpool Steamship Line, was successfully launched to-day at Newbury. She is a thorough built line steamer of about 3,000 tons. The Neptune, of the line of steamers running direct from New York and Boston, has been purchased by the Metropolitan Steamship Company of New York, who take possession on the 2d of December. The price paid was $300,000. It is said that the Boston shippers will at once establish a new line in place of the Neptune.

The Arkansas Legislature.

MEMPHIS, Nov. 24.—A special to the *Avalanche* from Little Rock says: The Arkansas Legislature elected the Hon. John T. Jones, of Phillips county, United States Senator to-day. The Presbyterian General Assembly will continue its session next week. It has been largely attended, and the greatest unanimity has characterized its deliberations. Many eminent divines are in attendance.

Booty of the Boston Swindlers.

BALTIMORE, Nov. 25.—The weather is quite cold here to-day with indications of snow. The *Herald's* Boston special says: Some fifteen or twenty thousand dollars worth of household goods which Boston swindlers purchased before they fled have been traced to St. Albans, Vermont, and there confiscated for the benefit of the creditor.

FINANCE AND TRADE.

SATURDAY, November 24, 1866.

The New York stock quotations to-day, as reported by Robinson, McClean & Co., were as follows: Gold, 139¼; 1881's, 112½; 5-20's old, 108⅛; do '65, 108½; 5-20s, new 107½; 7-30s, first series, 105⅜; second series, 104⅞. Michigan Southern R. R., 80¾; Cleveland & Pittsburgh, 84¾; Pittsburgh, Fort Wayne & Chicago, 104⅛; Erie R. R., 72⅝; Union Telegraph Company, —; Chicago & North Western, 41⅞; Chicago & Rock Island, 103⅛.

The change in New York, it will be seen by the above quotations, is decided. The panic in Wall street has spent its force, after having entailed tremendous losses upon a number of unsuspecting operators in stocks, losses estimated by one of our exchanges at twenty millions of dollars. There was doubtless good reason for contraction, and more than usual caution in making loans, but like all stock stampedes, men soon appear to act utterly without reason, and are the victims of the most senseless rumors. The blame, if blame there is, of the panic, must in part lie at the doors of the United States Treasury. The calls upon the National Bank deposits were unnecessarily exhausting, and seem less to us to have been made because the Treasury was not in any need, than to show the speculators the power of the Secretary of the market. The advocates of a rapid return to specie payments have now had another example of the certain disaster that will certainly accompany forced efforts of that sort. The only safe method, it seems to us, is that proposed by the last Congress. No further issue of National Bank notes, and a contraction in greenbacks slow but steady, at the rate of four millions per quarter. As breadstuffs decline, the purchasing power of currency increases, and should the harvests have proven all that was promised, it may be judicious to slightly increase the Secretary's power to contract. But one thing must be borne in mind, that the momentum for descent must be a thousand times more carefully used than that for ascent. We look for ease in one case, we can more safety in the other.

Our local market was quiet, but much more steady throughout the week, than was the case in the east. There was but little done in Governments. Holders were not disposed to sell at the decline made in New York, while buyers waited for lower rates. No movement in City and County Bonds during the week. No sales reported in the Philadelphia market. But little doing in Railway bonds or stocks—a few sales of Allegheny Valley Railroad at 16¼, and 15¾@16 bid for more. Connellsville quiet at 9¾@10. Bank shares in good request, with but few pressing on the market. Sales to-day of Pittsburgh Grain Elevator at $55 per share. About the usual amount of inquiry for Gas stocks, and Bridge Companies, both of which at present, are almost completely out of the market. The Birmingham Gas Company, we learn, will pay their usual dividend about the first of next month—no late sales of the stock. Allegheny Gas Company paid four per cent. The stock is in demand at 33, but not to be had. Oils continue much depressed. Should gold advance again to 145, we may see some slight improvement in them. Columbia (oil) is held at 15¾. Marine at 2¾. Triumph at $1. Money market working rather close but A No. 1 paper moves easily, yet, at current bank rates, 8@9 per cent.

—Apprehension seems to be general among business men, not here alone, but elsewhere, as to the future. Fears are sometimes expressed of financial revulsions, and a crisis like that of 1857, but then the trouble was caused principally by banking and Western unproductive land speculation, credit, and kiting in paper almost exclusively, without solid merchandising as the basis. While it is true that speculation is now rampant, it is funded generally upon supplies of all kinds stored up. The great fear in the minds of speculators at present is that consumers, in the hope of buying at lower prices when the apprehended crisis comes, halt in their purchases. This leaves the shelves of the stores of the retailers and jobbers loaded with goods to carry which, rather than reduce prices, they are resorting to loans at bank and elsewhere, thus increasing individual indebtedness, one of the causes of greatest suffering in past periods of distrust. If men in trade would act rationally, and yield to a first loss by which a decline in prices would enable them to avoid debt, and maintain their former status of cash dealers, they would much more certainly stave off financial trouble. It is this attempt to hold up prices by manufacturers and those holding heavy stocks, that has in it all the trouble that endangers the future. Business men, in carrying large stocks, too often overlook the interest on their capital that, like a moth, is silently eating out their substance.

—The mystery with which Secretary McCulloch has shrouded his recent manipulations of the stock, gold and money markets has, during the past few days, entirely unsettled prices, and yesterday the break-down, resulting therefrom, was in the nature of a panic. Large amounts of Treasury gold, which is or ought to be held for the purpose of paying the interest on government bonds, have been suddenly thrown upon the market, and so depreciated values as to have placed the mercantile community entirely at sea. Such sudden changes have ever been detrimental to the best interests of individuals and of the Government, as we have known in recent experience. Those who are least hurt by sudden contractions and expansions are the speculators, without which changes they could not subsist. Those who have the best right to complain, and whose interests are the most affected, are legitimate business men, who conduct their transactions by no mere guesswork, but by industry, perseverance and the shrewdness necessary to calculate the usual risks of trade. The consumer will be thankful for low prices and it is his right that the exorbitant figures so long ruling should be diminished; but low prices brought around at the expense of a financial crash are least of all things to be desired in the present condition of affairs. The effects of combination, either on the bull or bear side, are equally injurious, and when the Treasury Department undertakes by secret agencies to depress the gold market, its conduct is as reprehensible as when it in any other way enters the arena of the stock market. The day for lower prices is assuredly coming, if no extraneous influences are brought to bear. Any interference with the immutable laws of supply and demand will rather postpone than hasten that desirable time.—*Phila. Press.*

—The Lynn (Mass.) *Reporter* states that there have been nine failures in Lynn within the past month—none of them for very heavy amounts—and adds:

"If the present dull spell in trade continues more will be likely to go. If so, it will be all the better for the trade, as the anxiety of these weak parties to sell goods has unduly depressed the market, and induced buyers to believe that by holding off they could obtain goods at about their prices. If not a case of goods were to be made or sold in Lynn for the next month, the result would be beneficial."

The Messenger, en route from New Orleans to Cincinnati, passed Memphis on Wednesday, and the Resolute left there the day previous day for for Pittsburgh.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE,
SATURDAY, November 24, 1866.

CRUDE—The market for Crude was exceedingly quiet to-day, not a single sale being reported, and while the demand is light there is but comparatively little offering, prices have undergone no change one way or the other. We continue to quote at 10 to 10½, bbls returned and in bulk; and 15 to 15½, bbls included, according to gravity, and these, for the present, may be regarded as the extremes of the market. Some few holders have stiffened up a little in their views, basing their faith for a better market in the the future on the supposition that navigation will soon be impeded if not suspended for the winter, and with the receipts cut off and the stock reduced, they hope to realize better prices. Whether the basis above alluded to will turn out a good one, time alone will demonstrate, though it is no unusual thing for the Allegheny River to be in good navigable condition during the month of December. The transactions in crude during the week have been large in the aggregate, and the receipts, too, have been heavy, and while there is no disguising the fact that the supply of oil is large, the stock in the hands of crude dealers is not as large as generally supposed. Our latest advices from Oil City quote at $3.25 to $3.30 per bbls, at that point.

REFINED—There was more inquiry for bonded oil to-day, and while some were disposed to regard the market as being a shade stronger and a slightly better feeling, yet, so far as we could learn, there is no improvement in prices. We can report a sale of 1000 bbls. to be delivered in Philadelphia during the first half of December, at 34½; and 500 for February at same price. We are cognizant of an offer of 34 for 500 bbls of "Standard White" which is an improvement of half a cent, a sale having been made a day or two ago at 33½. The demand for free oil is restricted almost wholly to supplying the wants of the local trade, and consequently, we have no round lot operations to report. We quote standard brands at 48 to 49.

ARRIVALS—The following arrivals were reported to-day:

T. McMichaels	550	Gallagher & Son	600
Clarke & Co.	2000	D. M. Edgerton	1500
Barbour & Co.	50	Nat Ref, & S. Co.	50

Total	4750
Total Receipts for the week	75,649
Total Receipts since Jan. 1	979,658

Chicago Cattle Market.

CHICAGO, November 23.—The market continues dull and depressed. There was nothing of a particularly stimulating nature in Eastern advices, nor was the quality of the offerings calculated to encourage active operations. There was a slim attendance of buyers and under these adverse circumstances trade dragged heavily, and prices were no more than sustained. Only 650 head were taken. These went principally into the hands of butchers, at prices ranging from $3.25@4 for inferior to common grades, and $4.50@6 for good cows and good stock steers to good shipping Beeves.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
SATURDAY, Nov. 24, 1866.

The produce markets have been very dull and unsettled during the past week, and, worse than all, the indications at present, are not favorable for any immediate improvement. The panicky feeling which has been the leading characteristic of the leading eastern and western markets for some days past, has had its influence here, though, this market is always slow about making a turn, more particularly when the turn is downward. Flour is a shade lower, as is also Wheat and Provisions, but the decline here cannot yet be compared with the decline in Chicago and New York.

GRAIN—Wheat is dull, with but little offering, and unchanged—No. 1 Spring is quoted at $2.60. Oats dull but unchanged; may be quoted at 50 to 51, on track and in elevator, and 53 to 55, for small lots. Sale of 600 bush Spring Barley at $1.10; 1 car at $1.12, and 1 do do choice, at $1.15. Corn is dull, with a supply considerably in excess of the demand; old Shelled may be quoted at 95 to $1, and new at 75 to 80—sale of 1 car new White at 80. Rye is in light supply, and may be quoted steady at $1.25 to $1.30.

FLOUR—Continues a little dull and weak, with a drooping tendency. We continue to quote good standard brands of Spring Wheat at $12 to $12½, and Winter Wheat at $13½ to $13¾. Rye Flour is selling at $8¼ per bbl. Sale of 2 tons Buckwheat at $4½ per cwt. Cornmeal (white) is selling at $5 per bbl.

POTATOES—Sale of 2 cars prime Peach Blows (in bags) at 85c per bush, and 3 cars (in barrels) $2.75 per bbl. Sweet Potatoes remain about as last quoted.

APPLES—Continue to arrive very freely, and with a supply considerably in excess of the demand, prices are barely maintained. We quote in a regular way from store at $2 to $3 per barrel. Sale of 1 car load, on track, at $2.75.

HAY—Baled Hay continues to meet with a good demand, and sells readily on arrival at extreme prices; we quote prime at $26 to $27—it was reported that sales were made on wharf to-day at $28.

BUTTER—Is dull, with liberal receipts, and a big supply, and, if anything, a shade lower. Prime Roll may be quoted at 28 to 30—occasionally a small package of choice brings 32 to 33.

EGGS—Coming in more freely, but the demand is fair and market steady at 38.

SORGHUM—Is dull, with a supply considerably in excess of the demand and prices are a shade lower—sales of prime reported to-day at 65.

DRIED FRUIT—We can report regular sales of Peaches at 18 for quarters; 20 for "mixed;" and 22 to 23 for prime halves. Small sales of Apples at 10½.

CHEESE—Is dull; we quote at 16 for Western Reserve; 17 to 18 for Hamburg; 18 to 19 for Factory, and 19 to 20 for Goshen, according to quality.

HOMINY—Is in fair demand, and we can report regular sales at 3½c per lb.

SEEDS—Flaxseed is wanted at $3 to $3.10, and but little offering. Timothy and Clover quiet and unchanged.

MARKETS BY TELEGRAPH.

New York Financial Matters.

NEW YORK, Oct. 24.—Money active and firm, at 109@109½. Gold scarcely so firm, opening at 138½, declining to 138⅛, advancing to 139⅜ and closing at 138⅞.

Gold stocks ½@¾ per cent. better. Freights to Liverpool are active and firmer, at 4½d for corn.

The *Commercial's* money article says: Affairs on Wall street are steadily assuming a more unsettled aspect. There is still a certain degree of feverishness; the tone of the market is oscillating, but upon the whole there is a decided gain of confidence. There is no real scarcity of money, but considerable caution as to whom it is loaned. Sound borrowers have more money offered by banks than they can use, but there is an unusually large number of firms to whom lenders are indisposed to make advances, and some time must elapse ere it is deemed safe to lend with the ordinary degree of discretion. Money is being called in freely from the interior, but in every instance with a successful response, a feature which helps, with other things to keep confidence unsettled. After the board there was some hammering of stocks and prices fell off slightly. Governments are generally unchanged, the fall in prices having brought out large orders to-day, especially from the interior. Five-twenties of '62 are sold short to a moderate extent, but probably not sufficiently to induce any attempt at cornering.

NEW YORK, November 24.—The *Post's* money article says: The loan market is easier, but there is still an uncomfortable feeling which is due in part to apprehensions as to the bank statement which will show, as is rumored, another considerable decline in legal tenders. Some suppose that the decline will be as much as eight or ten millions; others, with probably better reason, estimate it at two or three millions. The continued perturbation in the reserve of the banks is attributed to the withdrawal by Mr. McCulloch of the millions of greenbacks, which have been cancelled during the last few weeks, while the demand for currency is greater than any other part of the year, in consequence of the moving of the crops. Call loans are 7 per cent. this morning, with exceptions at 6. Discounts are dull and slow at 7@9.

LATEST.

The money market was better this afternoon, and capital was more abundant, at 6@7 per cent. on Governments and stock collaterals. Discounts are dull, and prime names pass slowly at 7@9 per cents. The bank statement on Monday bids fair to be far more favorable than was generally expected. There will probably be a decrease of $5,000,000 in bonds, $6,000,000 in deposits; and $5,000,000 in legal tenders. The bank report increased the receipts of currency from the interior. The latest sales of gold were at 138¾, and the market is steady at that figure, cash. Gold was loaned as high as 1-32 per cent. premium at one time, but afterwards 3@4 per cent. was paid to have it carried. The stock market improved late in the day and closed steadily at our quotations below: Ohio Certificates, 28½@29; Canton, 47@47½; Quicksilver, 46½@47; Western Union Telegraph, 46¾@47; New York Central, 110@110¼; Erie, 73½; Hudson, 120@121½; Reading, 113@113½; Michigan Southern, 80½@81; Illinois Central, 119½; Pittsburgh, 84¼@85½; Toledo, 111½@112.

New York Produce Market.

NEW YORK, November 24.—Cotton quiet at 33½@34c for midling uplands, and 35½c for do Orleans. Flour opened 10@15c better but closed dull, with the advance lost; $10.75@11.65 for round hoop Ohio, and 11.70@13.50 for trade brands. Whisky quiet and unchanged. Wheat opened 1@2c better with a fair export demand, but closed quiet, buyers generally refusing to pay any advance; $2.20@2.22 for No. 2. Rye a shade firmer but closing heavy. Barley firmer but closes quiet; $1.03@1.05 for Canada West in bond; 90c for Western, and $1.05 for two-rowed State. Corn opened 1@2c better, but closed irregular, unsettled and with the advance partly lost; $1.21½@1.25 for shipping mixed western in store and afloat, closing with buyers for export at $1.27 afloat; $1.05@1.07 for new yellow Jersey, and $1.27 for common white Southern. Oats 1@2c better and more active; 62@64c for Chicago and Milwaukee. Coffee dull. Sugar dull and nominal. Petroleum easier; 22@22½c for crude, and 34@35c for refined in bond. Pork opened heavy and lower, but closed firmer; $21.25@22.12 for regular and cash new mess, closing at $22 for cash, and $19.50@20.50 for prime; also 1850 barrels new mess at $22.75@22.85, seller all of January and seller all year on prime. Beef heavy at about previous prices. Beef hams dull and lower at $26.50@33. Bacon heavy and lower; 12c for Cumberland cut, and 12½@12½c for short ribbed. Cut meats heavy and irregular at 9@10½c for shoulders, and 12@13½c for hams. Dressed hogs firmer at 10@10½c for western. Lard firmer at 12@13½c, and small lots at 13½@13⅝c.

Buffalo Market.

BUFFALO, Nov. 24.—Flour; sales of 485 bbls. No. 1 spring, at $11.50; 50 bbls amber Ohio, at $13. Wheat quiet, held; Greenbay and Port Washington Club, at $2.10; No. 2 Milwaukee spring, about $2.10. Corn; 7,500 bush. Illinois mixed, at $1.06; 7,300 do, new Toledo mixed, at 95c. Oats held at 50c. Barley; Canada, at $1.05 @1.08. Rye, at $1.00. Peas, Canada, at $1.30. RIVER NEWS.

The river continues to recede steadily at this point with five feet ten inches in the channel last evening. The weather yesterday was cloudy, with indications of snow, and business at the landing was very dull.

The Bayard got in from Parkersburg on time, and will return again at noon. The Kate Robinson got in from St. Louis yesterday, with an excellent trip. The Kate has had good trips both ways.

The Argonaut dropped down to the point on Saturday for the purpose of taking on railroad iron for St. Louis. The Rob Roy came up to the main landing on Saturday afternoon, and will to-day commence loading for Cincinnati and St. Louis. Capt. Charles Beers is in command.

The Kate Putnam arrived at St. Louis on Thursday last, and the Savanna was advertised to leave there for Pittsburgh on Friday. The America arrived at Cincinnati on Friday for New Orleans.

The Quickstep cleared for Cincinnati on Saturday, with a pretty good trip of freight, though, she had, on leaving here, but few passengers. The Grey Eagle left for Parkersburg, and the Urilda for Oil City.

The explosion which occurred in the hold of the steamer Delaware on Friday, was not from oil as reported in some of our cotemporaries. It was occasioned by gas generating from a barrel of composition material used for "roofing," becoming ignited by a candle in the hands of a man who was engaged in the hold at the time. We are unable to state what this composition is composed of, further than it is a Cincinnati preparation, and is very freely used on Cincinnati boats. Fortunately, the explosion did not damage either life or property.

The Columbia did not get off for Cincinnati and Louisville on Friday in consequence of the fact that she was unable to complete her cargo. We are requested by Capt. Reed to state that she will leave this afternoon positively, and passengers and shippers should bear this fact in mind.

The Camelia, is filling up steadily for Nashville, and Capt. Lytle says he intends to leave to-morrow evening without fail.

The Glendale, Capt. J. H. Hare, with James Mellon, in the office, is filling up steadily for St. Louis, and will probably be ready to take her departure this evening. This fine steamer has superior accommodations for passengers.

FOR ST. LOUIS.—The elegant steamboat Rob Roy is loading and taking passengers for Cincinnati, Louisville, Cairo, St. Louis and all intermediate landings. She will depart to-morrow afternoon at four o'clock. Master Charles Beers, than whom there is no better river man afloat, will be found at his post, while our friend Alf. P. Evans will be found in the clerk's office.

The Argosy and Sherman arrived at Cincinnati on Thursday, and the former boat was was advertised to leave for Pittsburgh Friday. The tow boats Tom Rees, V. F. Wilson, and H. H. Brown arrived at Louisville on Thursday. We see by our St. Louis exchanges that Capt. A. McGowan is loading the Savanna at St. Louis for Pittsburgh. The tow boats Star and Dick Fulton, and the Maggie Hays arrived at Louisville, from below, during Wednesday and Thursday.

THE WILD WAGONER SOLD AGAIN.—This fine steamer was sold last Wednesday by Capt. J. B. Ford to Captains J. W. Roberts and M. D. Condiff, for the sum of $45,000. She will be placed in the Louisville and New Orleans trade, as a regular packet, in command of Captain J. W. Roberts, with Captain Condiff in the office.

The Memphis *Bulletin*, of Sunday says:

"Captain Haslett, of the Rubicon, was arrested at Helena for violation of the internal revenue laws, and taken to Little Rock. The boat proceeded to Vicksburg in charge of Mr. Grissom."

The internal revenue laws require instant amendemet. The fact of Capt. Haslett's arrest proves it, for there is no man living who would be slower willfully to violate any law State or National, than the man in question.—*St. Louis Democrat.*

The Cairo *Democrat* says: "As the Platte Valley passed down on her last trip a gentleman took passage on her for Vicksburg, who gave name as George Coolbaugh. Handing the clerk an express package, said to contain $2500, directed to himself, from W. R. Wright, Chicago, he requested him to take care of it until he reached his destination, remarking that he would pay his fare from the package when he called for it." George borrowed a little "loose change" from the clerk and sloped, leaving the clerk to take care of his wallet, containing—nothing.

CONSUMPTION.

Our son JAMES PAINTER, some three years ago was afflicted with consumption of the lungs, for which he was discharged from the army. He was examined by four army physicians who all agreed that he must die with the disease. I brought him to Dr. KEYSER, 140 Wood street, (now 120 Penn street,) who, after sounding his lungs, commenced to treat him, and cured him sound and well. He is now well and has been so for the past three years. Others afflicted in like manner can likewise be cured.

JAMES PAINTER,
SARAH ANN PAINTER.

Temperanceville, Sept. 5th, 1866.

PITTSBURGH, December 31.

A GREAT CURE BY DR. KEYSER'S PECTORAL SYRUP. I live in Peebles township, Allegheny county. I had a cough and spitting, which commenced about the 4th of February last, and continued eight months. I employed the best physicians in the country, and my cough continued unabated until early in October. At that time I was advised to try your Pectoral Cough Syrup, which I did, and after I had taken one bottle I was entirely free from the coughing and spitting. I had despaired of ever getting well, and I think it should be known that this valuable remedy will do for others what it has done in my case.

JOHN C. LITTLE,
Witness R. F. KERR. Peebles township.

A case of five years' standing cured by DR. KEYSER'S PECTORAL SYRUP.

PITTSBURGH, January 11, 1866.

DR. KEYSER:—My wife has been afflicted with a dry cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought, the first time, a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself for a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this you desire to do so.

WM. WILSON,
Alderman, Fifth Ward

WHOOPING COUGH.

Below will be found a certificate from Doctor M. Dupuy, one of our most respectable dentists, in regard to Dr. Keyser's Pectoral Syrup. The Pectoral Syrup is also an infallible cure for every form of cough and cold to which we are liable.

PITTSBURGH, June 23, 1863.

DR. KEYSER—Dear Sir: I have for a long time been opposed to advertised or patent medicines, and it is with reluctance that I recommend any of them. The consideration, however, that I am doing the community a service, induces me to overcome my objections, and to publicly recommend your Pectoral Syrup. We have kept it in our family for the last five or six years, and have given it for coughs, such as are produced by colds, &c., with the effect of alleviating or entirely arresting them. During last winter our children were exposed to the infection of whooping cough, and each one of our three boys was attacked with what we believe to be that malady. We administered your Syrup liberally, and the result was, that the whooping cough lasted with neither of them more than ten or twelve days. I hope others will at least make a trial of your medicines in such cases, as we have found it beneficial.

Yours,
M. DUPUY, No. 21 Wylie street.

HERNIA OR RUPTURE.

It will be observed that we have published for some time past an advertisement of Dr. George H Keyser, of 140 Wood street, Pittsburgh, Pa., in reference to Trusses and other mechanical appliances for the cure and relief of hernia, or rupture, besides various broken down conditions of the human body which are usually beyond the reach of medication. Dr. Keyser has given this branch of the business great attention for several years past, and we think we are justified in saying that he comprehends it thoroughly. You can get at his store Shoulder Braces for weak breasts, Elastic Stockings for varicose veins, Pile Props for the cure of Piles, and, in fact, every variety of mechanical appliance. Dr. Keyser is the inventor of a Truss for the radical cure of hernia or rupture, so perfect in its parts, and so comfortable to the wearer, as to elicit the admiration of all who may need such an appliance.

He has recently been in communication with some of the ablest and most experienced truss surgeons in the United States, and feels satisfied that all those who have been plagued or annoyed with ill-fitting and uncomfortable trusses, can be accommodated by calling at his consulting rooms, No. 120 Penn street, or at his Medicine and Truss Depot, 140 Wood street. Office hours from eight to eleven A. M. and one to four P. M.

DEAFNESS AND THE EAR.

Many persons have rested content in the belief that skin and ear diseases, however troublesome will wear out of themselves, or that no remedy will avail in effecting a cure; in this way many persons have suffered through some half dozen years, who might easily have been relieved at the onset in a many weeks. So also with regard to the ear, a prejudice has obtained that the ear is too delicate an organ to be treated, or as is often expressed, *tampered with;* hence hundreds have thus remained deaf for the greater part of a lifetime, who might have been greatly relieved, and in many instances, completely restored to their hearing, had proper assistance been timely applied for, as may readily be seen by a perusal of the following certificate. We also take occasion to remark that the testimonials comes from a source close at hand, in Allegheny City, where, upon inquiry, any one interested can satisfy themselves of its truth:

PITTSBURGH, July 28, 1864.

DEAR SIR:—I take pleasure in adding my testimony to that of others in favor of Dr. Keyser's treatment of deafness. My son had been afflicted for five years with deafness produced from scarlet fever. At times he could not hear at all; and could only understand us as we would motion to him. His speech had also become affected. Having tried other remedies without receiving any benefit. I applied to Dr. Keyser, and under his treatment he was entirely recovered, and can now hear as well as ever he did.
